Gradebook setup guide | Nine weeks

A planning resource for choosing a manageable set of grades. Confirm campus expectations before posting.

Use the weekly packets as evidence

There is a separate Friday assessment PDF for each of the nine weeks in the calendar. Each has brief checks and answer guidance. A check is not automatically a grade; choose the evidence and number of entries that match the campus grading plan. This guide helps set up the gradebook and does not repeat the weekly assessments.

Math | suggested six grades

A reasonable starting plan is six math grades across the nine weeks, within the 5-7 range Stacie described. The suggested dates sample the planned skill sequence. The two learners have separate targets; use each learner's grade-level column and the matching Friday packet.

Week and Friday	Grade 3 focus	Grade 4 focus	Plan
Week 1 | October 16	Make equal groups and find the total; then Share equally and find how many are in each group.	Model division and connect the model to an equation.	Suggested grade
Week 2 | October 23	Share equally and find how many are in each group.	Represent a two-step problem with operations, a diagram and a letter for the unknown.	Practice / optional
Week 3 | October 30	Share equally and find how many are in each group; then Show how two quantities change together in a table.	Represent a two-step problem with operations, a diagram and a letter for the unknown; then Measure the space inside a rectangle and the distance around it.	Suggested grade
Week 4 | November 6	Show how two quantities change together in a table; then Name equal parts of a whole and show a fraction.	Measure the space inside a rectangle and the distance around it.	Practice / optional
Week 5 | November 13	Name equal parts of a whole and show a fraction; then Build and take apart fractions using unit fractions.	Use a rule to complete an input-output table.	Suggested grade

Week and Friday	Grade 3 focus	Grade 4 focus	Plan
Week 6 | November 20	Build and take apart fractions using unit fractions.	Use equal-size wholes to compare fractions and explain why.	Suggested grade
Week 7 | December 4	Show that different fractions can name the same amount.	Use equal-size wholes to compare fractions and explain why.	Practice / optional
Week 8 | December 11	Show that different fractions can name the same amount; then Compare fractions with the same numerator or denominator.	Join or remove fractional parts with the same denominator.	Suggested grade
Week 9 | December 18	Compare fractions with the same numerator or denominator; then Choose a tool and measure weight or how much a container holds.	Join or remove fractional parts with the same denominator.	Suggested grade

Set up the gradebook

Use the names or categories Stacie's campus requires. Suggested categories: reading and writing, spelling, math, science, and social studies. Add the actual skill, date and score range to each entry. Do not enter a TEKS code or HMH spelling pattern until the exact taught skill is confirmed.

Other subjects

Reading: use the Friday book-comprehension check when a grade is needed; students may answer with pictures, AAC, pointing, speech or writing. Spelling: assess words from the pattern actually taught. Science: use the Friday check, including the investigation on lab Fridays. Writing products are scheduled in weeks 1, 3, 5, 7 and 9; social studies products in weeks 2, 4, 6 and 8. These are available evidence choices, not a required count of posted grades.

Keep grading and progress monitoring distinct

Record the student response and the help given. Apply campus scoring rules to classroom grades. Keep no response separate from an incorrect answer. Use an activity for IEP progress only after matching it to the actual IEP goal and measurement conditions; goals are still awaiting upload.

Gradebook planning worksheet

Use this page to set up the entries Stacie's campus requires.

Campus / class: _____ Grading period: _____

Reading and writing | Number of grades: _____ Categories / names:

_____

Dates or skills to enter:

_____

Spelling | Number of grades: _____ Categories / names:

_____

Dates or skills to enter:

_____

Math | Number of grades: _____ Categories / names:

_____

Dates or skills to enter:

_____

Science | Number of grades: _____ Categories / names:

_____

Dates or skills to enter:

_____

Social studies | Number of grades: _____ Categories / names:

_____

Dates or skills to enter:

_____

Math sample: choose 5-7 dates. Suggested dates from the guide: Week 1, Week 3, Week 5, Week 6, Week 8, Week 9.

Campus grade weighting / scoring rule to confirm:

_____

_____

_____

Week 1 | Friday checks

2026-10-16 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Room on the Broom

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Room on the Broom

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 1

Grade 3

3.4H | 3.4J

1. Share 6 counters equally between 2 plates; show how many are on each.

2. Use 2 x 3 = 6 to explain 6 / 2.

3. Make 2 groups of 3 and show the total with a multiplication model.

Teacher key

3 on each; quotient 3 connected to the multiplication fact; 6 total with equal groups.

Grade 4

4.4E | 4.4F

1. Model 12 / 3 and record an equation.

2. Use the written division steps to solve 15 / 3; show how the model matches.

3. Check the quotient in 12 / 3 using multiplication.

Teacher key

4; 5 with divide/multiply/subtract steps and remainder 0; 3 x 4 = 12. Small-number access evidence, not full four-digit mastery.

Science | Week 1

Grade 3

3.7A | 3.7B

1. Push a toy car. Show what changed.

2. Pull a toy wagon toward you. Name or select pull.

3. Predict what happens when a ball is released above a tray.

Teacher key

Position or motion changes; pull; ball falls due to gravity

Grade 4

4.6B | 4.6C

1. Compare soil mixed with water and sugar mixed with water. Describe one observed difference.

2. Record the mass of the same closed soil-water container before and after mixing.

3. Use the readings to explain whether any matter was lost.

Teacher key

Soil may settle/remain visible; dissolved sugar is not separately visible. Before and after readings agree within scale resolution if nothing spills. Same materials remain; equal readings support conservation.

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 2 | Friday checks

2026-10-23 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Big Pumpkin

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Big Pumpkin

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 2

Grade 3

3.4H | 3.4J

1. Share 8 counters between 2 plates.

2. Make groups of 3 from 9 counters.

3. Build a model of 6 divided by 2.

Teacher key

4 on each; 3 groups; 2 groups of 3 or 3 groups of 2 with matching interpretation

Grade 4

4.5A

1. Build 2 bags with 3 pencils each, then give away 1. Show both steps.

2. Draw a strip diagram and write (2 x 3) - 1 = n for the pencils left.

3. Solve n and explain how the model shows the result.

Teacher key

6 then 5; diagram represents 6 with 1 removed and 5 remaining, equation uses n; n = 5 with both operations represented.

Science | Week 2

Experiment replaces the separate science quiz

Use materials connected to Big Pumpkin: Use a toy pumpkin or car to show how a push or pull changes position and motion. Record a prediction, three observations and one evidence-based conclusion.

Grade 3

3.7A | 3.7B

1. Show a push that starts a car moving.
2. Show a pull that changes a car position.
3. Predict what changes when a moving car hits a stationary car.

Teacher key

Push demonstration; pull demonstration; stationary car can move or position changes

Grade 4

4.8A

1. Predict what happens when a moving car reaches a stationary pumpkin model.
2. Run a fresh trial and show what moves.
3. Identify evidence that energy transferred.

Teacher key

Reasonable prediction; identifies observed movement; second object changes motion after contact. Score the observation against the actual trial.

Additional product: Social studies

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 3 | Friday checks

2026-10-30 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Pumpkin Soup

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Pumpkin Soup

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 3

Grade 3

3.5E

1. Build a table for 1, 2 and 3 bags with 2 counters in each bag.

2. Show how many counters are needed for 4 bags.

3. Explain or select the relationship between bags and counters.

Teacher key

1/2, 2/4, 3/6; 8 counters; two counters for each bag.

Grade 4

4.5C | 4.5D

1. Cover a 2-by-3 rectangle with square tiles and explain 2 x 3.

2. Trace all four sides and explain 2 + 3 + 2 + 3.

3. For a 2-by-4 rectangle, find area and perimeter with a model.

Teacher key

6 square units; 10 units; area 8 square units and perimeter 12 units. Accept supported models; record help.

Science | Week 3

Grade 3

3.8A

1. Identify light from a flashlight.

2. Identify sound from a shaker.

3. Show mechanical energy by moving a car.

Teacher key

Light; sound; moving object

Grade 4

4.8A | 4.8B | 4.8C

1. Close a battery circuit with an LED or bulb.

2. Open the circuit and show what happens.

3. Identify that electrical energy follows a closed path when the bulb lights.

Teacher key

Bulb lights; bulb stops lighting; closed path identified

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 4 | Friday checks

2026-11-06 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Leaf Man

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Leaf Man

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 4

Grade 3

3.3A | 3.3C

1. Complete the table: 1 bag/2 counters, 2 bags/4 counters, 3 bags/__ counters.

2. Show one half of a paper whole split into two equal parts.

3. Show three fourths of a whole split into four equal parts.

Teacher key

6 counters; one of two equal parts; three of four equal parts.

Grade 4

4.5C | 4.5D

1. Cover a 2 by 4 rectangle with tiles. Find its area.

2. Count the unit edges around that rectangle.

3. Compare a 1 by 4 rectangle to a 2 by 2 square. Which has greater perimeter?

Teacher key

8 square units; 12 units; 1 by 4 has perimeter 10 versus 8

Science | Week 4

Experiment replaces the separate science quiz

Use materials connected to Leaf Man: Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Record a prediction, three observations and one evidence-based conclusion.

Grade 3

3.8A

1. Use a shaker to make sound.

2. Identify the vibrating material in the shaker or rubber-band box.

3. Sort flashlight and shaker as light and sound examples.

Teacher key

Sound produced; moving contents or vibrating band; correct light/sound sort

Grade 4

4.8A

1. Observe the sound source off, then on. What changes?

2. Show or identify a vibration caused by the sound.

3. Show which observation is evidence that sound transfers energy.

Teacher key

Describes actual change; identifies observed vibration; connects evidence to sound energy transfer. Record no visible change honestly and retry with the tested demonstration.

Additional product: Social studies

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 5 | Friday checks

2026-11-13 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | We're Going on a Leaf Hunt

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | We're Going on a Leaf Hunt

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 5

Grade 3

3.3C | 3.3D

1. Partition a rectangle into 4 equal parts. Show one fourth.

2. Show three fourths on the same model.

3. Build two fourths from two one-fourth pieces.

Teacher key

4 equal parts and 1 selected; 3 selected; 1/4 + 1/4 = 2/4 model

Grade 4

4.5B

1. Continue 2, 4, 6, __, __. Name the rule.

2. Use a table with input 1, 2, 3 and output 3, 4, 5. Name the rule.

3. For the rule add 2, find the output for input 5.

Teacher key

8, 10 and add 2; add 2; 7

Science | Week 5

Grade 3

3.8A

1. Match a flashlight to light energy.

2. Match a safely warm sealed bottle to thermal energy.

3. Identify a moving toy as mechanical energy.

Teacher key

Light; thermal; mechanical

Grade 4

4.7

1. Use a magnet near a paper clip without touching.

2. Release a ball above a tray.

3. Move a car across felt and a smooth board. Identify a force that slows it.

Teacher key

Magnetic force at a distance; gravity; friction

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 6 | Friday checks

2026-11-20 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Fletcher and the Falling Leaves

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Fletcher and the Falling Leaves

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 6

Grade 3

3.3C | 3.3D

1. Build three fourths using one-fourth pieces.
2. Separate three fourths into two fourths and one fourth.
3. Show that four one-fourth pieces make one whole.

Teacher key

3 unit pieces; 2/4 and 1/4; complete whole

Grade 4

4.3C | 4.3D

1. Compare one half and one fourth using equal-size wholes.
2. Compare three fourths and one fourth.
3. Compare one half and two fourths.

Teacher key

1/2 greater; 3/4 greater; equal

Science | Week 6

Experiment replaces the separate science quiz

Use materials connected to Fletcher and the Falling Leaves: Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Record a prediction, three observations and one evidence-based conclusion.

Grade 3

3.8B

1. Predict which trial will move the foam block farther.
2. Observe the faster car and the block's movement.
3. Show evidence connecting greater speed with greater effect on the block.

Teacher key

Prediction recorded before trial; correctly identifies observed speed and movement; relates faster motion to a greater observed effect, with other conditions held constant.

Grade 4

4.7

1. Compare the same car on smooth board and felt.
2. Identify which surface slows the car more.
3. Explain or select that friction changes the motion.

Teacher key

Both surfaces tested; felt generally slows more; friction identified

Additional product: Social studies

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 7 | Friday checks

2026-12-04 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | The Seasons of Arnold's Apple Tree

Use the actual book, with the planned access supports.

1. What is this book teaching us about?

Teacher key: States the topic or central idea shown by the page.

2. Show one fact or illustration detail from the selected page.

Teacher key: Points to or tells a fact actually shown on the page.

3. How does that detail support the central idea?

Teacher key: Connects the detail to the central idea.

Grade 4 reading | The Seasons of Arnold's Apple Tree

Use the actual book, with the planned access supports.

1. What information does this page add?

Teacher key: Identifies information actually shown on the page.

2. Which text feature or illustration helps you understand it?

Teacher key: Names or points to a matching feature or illustration.

3. How does the page support your answer?

Teacher key: Uses page evidence to explain the response.

Math | Week 7

Grade 3

3.3F | 3.3G

1. Match one half to two fourths.
2. Match one third to two sixths.
3. Show two names for the same amount with fraction strips.

Teacher key

Equivalent matches; equivalent matches; valid equivalent pair

Grade 4

4.3C | 4.3D

1. Compare two thirds and one third.
2. Compare one half and three fourths.
3. Show why two fourths equals one half.

Teacher key

2/3 greater; 3/4 greater; same amount on equal-size wholes

Science | Week 7

Grade 3

3.8B

1. Plan slow and faster runs of the same car into the same foam block; name what stays the same.

2. Run and repeat the comparison, resetting the block. Identify observed speed and block movement.

3. Use the observed effect on the block to explain how speed relates to mechanical energy.

Teacher key

Keeps car/block/surface/collision point fixed; records actual observations; faster motion of the same object has more mechanical energy, supported by the observed greater effect. Recheck setup if results are inconsistent.

Grade 4

4.7

1. Predict whether a magnet attracts a paper clip.

2. Test a paper clip and a wooden craft stick.

3. Sort the objects by observed magnetic attraction.

Teacher key

Prediction stated; both tested; paper clip attracted, wooden stick not

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 8 | Friday checks

2026-12-11 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Little Penguins

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Little Penguins

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 8

Grade 3

3.3H

1. Compare one half and one fourth.

2. Compare three fourths and one fourth.

3. Show that two fourths and one half are equal.

Teacher key

1/2 greater; 3/4 greater; equal

Grade 4

4.3A | 4.3B | 4.3E

1. Build 3/4 in two ways as a sum of same-denominator fractions; record both equations.

2. Model 3/4 - 1/4 and name the result.

3. Build 1 whole plus 1/2 from halves and record 1/2 + 1/2 + 1/2.

Teacher key

1/4 + 2/4 and 1/4 + 1/4 + 1/4; 2/4 (or 1/2); 3/2 = 1 1/2.

Science | Week 8

Experiment replaces the separate science quiz

Use materials connected to Little Penguins: Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Record a prediction, three observations and one evidence-based conclusion.

Grade 3

3.8A | 3.8B

1. Plan slow and faster runs of the same car into the same foam block; name what stays the same.
2. Run and repeat the comparison, resetting the block. Identify observed speed and block movement.
3. Use the observed effect on the block to explain how speed relates to mechanical energy.

Teacher key

Keeps car/block/surface/collision point fixed; records actual observations; faster motion of the same object has more mechanical energy, supported by the observed greater effect. Recheck setup if results are inconsistent.

Grade 4

4.7

1. Test the same car on smooth board and felt.
2. Describe a repeatable difference.
3. Identify friction as the force related to slowing.

Teacher key

Controlled surface test; plausible observed difference; friction

Additional product: Social studies

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Week 9 | Friday checks

2026-12-18 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | The Snowy Day

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | The Snowy Day

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 9

Grade 3

3.7D | 3.7E

1. Compare one half with one fourth using equal-size wholes.
2. Choose a tool to measure weight; measure an object and name its unit.
3. Use a marked cup to measure water and record the number and unit.

Teacher key

One half is larger; balance/scale with appropriate weight units; observed volume with appropriate units. Verify against the tool reading.

Grade 4

4.3A | 4.3B | 4.3E

1. Build two fourths plus one fourth.
2. Build one whole and one half, then remove one half.
3. Show one and one fourth as fourth-size pieces.

Teacher key

3/4; 1 whole; 5 fourth-size pieces

Science | Week 9

Grade 3

3.8A | 3.8B

1. Plan slow and faster runs of the same car into the same foam block; name what stays the same.

2. Run and repeat the comparison, resetting the block. Identify observed speed and block movement.

3. Use the observed effect on the block to explain how speed relates to mechanical energy.

Teacher key

Keeps car/block/surface/collision point fixed; records actual observations; faster motion of the same object has more mechanical energy, supported by the observed greater effect. Recheck setup if results are inconsistent.

Grade 4

4.7 | 4.8A

1. Show a model of a force or energy transfer.

2. Demonstrate the tested change.

3. Communicate one observation that supports the explanation.

Teacher key

Relevant model; meaningful demonstration; evidence matches explanation

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.

Weekly grades and evidence

Student _____ Grade ____ Week ____ Friday _____

Write the subject and exact TEKS code; attach the dated response or photo. Keep accuracy, planned access and extra prompts separate. Apply confirmed campus grading rules.

Check	TEKS / taught skill	Correct / total	Help / evidence
Spelling	_____	____ / ____	_____
Reading	_____	____ / ____	_____
Math	_____	____ / ____	_____
Science / lab	_____	____ / ____	_____
Writing or social studies	_____	____ / ____	_____

Response conditions

Planned response mode: _____ Planned access: _____ Extra prompt: I / V / G / M / P / NR. I = independent with planned access; NR = no response.

Next instruction

Reteach / repeat with less help / extend: _____

Actual IEP goal setup

No IEP goals are prefilled. Copy the current approved goal before planning formal probes.

Student initials and grade

_____

_____

Exact approved goal wording

_____

_____

Baseline and date

_____

_____

Target criterion and unit of measurement

_____

_____

Required response conditions and access

_____

_____

Probe materials and equivalent examples

_____

_____

Frequency, trial count and reporting dates

_____

_____

How the classroom task matches the goal

_____

_____

Where the evidence will be stored

_____

_____

Student progress log

Student _____ Grade ____ Date range _____

Name the target

Subject / TEKS: _____ Daily learning target: _____ Actual IEP goal, if applicable: _____

Keep conditions consistent

Response method: _____ Planned access: _____ Trials: ____ Measurement unit: _____

Date / task	Correct / total or raw measure	Extra prompt / NR	Evidence / next step

Prompt key: I independent with planned access; V verbal; G gesture; M model; P physical; NR no response. NR is not automatically an incorrect academic response. Use an IEP measure only when it matches the actual goal.

Progress across nine weeks

Student _____ Actual goal / TEKS _____ Unit _____

Baseline: _____ Date: _____ Criterion: _____ Planned access: _____ Keep raw measures and trial counts visible. Do not compare percentages from different tasks as if they measure the same skill.

Week / date	Raw measure / trials	Response and help	Next step

Daily routine step record

Student _____ Routine _____ Date _____

Write observable steps from the actual routine. This is classroom evidence unless the routine and measurement match an approved IEP goal.

Step to observe	Response	Help / no response	Next practice
