Week 5 | Friday checks

2026-11-13 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | We're Going on a Leaf Hunt

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | We're Going on a Leaf Hunt

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 5

Grade 3

3.3C | 3.3D

1. Partition a rectangle into 4 equal parts. Show one fourth.

2. Show three fourths on the same model.

3. Build two fourths from two one-fourth pieces.

Teacher key

4 equal parts and 1 selected; 3 selected; 1/4 + 1/4 = 2/4 model

Grade 4

4.5B

1. Continue 2, 4, 6, __, __. Name the rule.

2. Use a table with input 1, 2, 3 and output 3, 4, 5. Name the rule.

3. For the rule add 2, find the output for input 5.

Teacher key

8, 10 and add 2; add 2; 7

Science | Week 5

Grade 3

3.8A

1. Match a flashlight to light energy.

2. Match a safely warm sealed bottle to thermal energy.

3. Identify a moving toy as mechanical energy.

Teacher key

Light; thermal; mechanical

Grade 4

4.7

1. Use a magnet near a paper clip without touching.

2. Release a ball above a tray.

3. Move a car across felt and a smooth board. Identify a force that slows it.

Teacher key

Magnetic force at a distance; gravity; friction

Additional product: Writing

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.
