Week 4 | Friday checks

2026-11-06 | Three brief items per check. Record accuracy and support separately.

Spelling

Use three words explicitly taught from each learner's current HMH sound-spelling pattern. Say the word, use it in a sentence, repeat it. Record encoding separately from supported pattern recognition. Words: _____ _____ _____.

Grade 3 reading | Too Many Pumpkins

Use the actual book, with the planned access supports.

1. Who is here, where are they, and what happens first?

Teacher key: Names or points to the character, setting or event.

2. What does a character do about the problem?

Teacher key: Shows a character action in the selected scene.

3. What happens next or at the end?

Teacher key: Sequences the next or ending event from the book.

Grade 4 reading | Too Many Pumpkins

Use the actual book, with the planned access supports.

1. What problem or important event is shown in this scene?

Teacher key: Identifies a problem or important event actually shown.

2. What does a character do, and why?

Teacher key: Explains a character action or choice with support.

3. How does that action affect the result? Show the page or illustration.

Teacher key: Connects the action to the result using page evidence.

Math | Week 4

Grade 3

3.3A | 3.3C

1. Complete the table: 1 bag/2 counters, 2 bags/4 counters, 3 bags/__ counters.

2. Show one half of a paper whole split into two equal parts.

3. Show three fourths of a whole split into four equal parts.

Teacher key

6 counters; one of two equal parts; three of four equal parts.

Grade 4

4.5C | 4.5D

1. Cover a 2 by 4 rectangle with tiles. Find its area.

2. Count the unit edges around that rectangle.

3. Compare a 1 by 4 rectangle to a 2 by 2 square. Which has greater perimeter?

Teacher key

8 square units; 12 units; 1 by 4 has perimeter 10 versus 8

Science | Week 4

Experiment replaces the separate science quiz

Pumpkin sound investigation: shake an adult-sealed container of dried pumpkin seeds softly. Grade 3 identifies sound energy (3.8A). Grade 4 compares sound on/off beside a light paper membrane to look for vibration as evidence of sound energy transfer (4.8A). If no movement is visible, record that result and use the teacher's tested sound demonstration.

Grade 3

3.8A

1. Use a shaker to make sound.
2. Identify the vibrating material in the shaker or rubber-band box.
3. Sort flashlight and shaker as light and sound examples.

Teacher key

Sound produced; moving contents or vibrating band; correct light/sound sort

Grade 4

4.8A

1. Observe the sound source off, then on. What changes?
2. Show or identify a vibration caused by the sound.
3. Show which observation is evidence that sound transfers energy.

Teacher key

Describes actual change; identifies observed vibration; connects evidence to sound energy transfer. Record no visible change honestly and retry with the tested demonstration.

Additional product: Social studies

Writing: one clear idea, relevant detail/reason and understandable communication. Social studies: a correct person/event or community claim, relevant source evidence and supported connection. Score each criterion 0/1 with prompts noted; apply school grading rules.
