Reading and writing

2026-11-05 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8B

3.8B: Explain the relationships among the major and minor characters. In plain English: Explain how the main and supporting characters are connected. Today: Show a helpful action that repairs the friendship.

Grade 4 | TEKS 4.8A

4.8A: Infer basic themes supported by text evidence. In plain English: Work out a story's message and support it with evidence from the text. Today: Use a scene to explain a message about sharing responsibilities.

I Do

Grade 3: Open Pumpkin Soup to the matching scene. Say, "We are learning to show a helpful action that repairs the friendship." Use cat, squirrel and duck figures; bowl and spoon to model one response, then point to the page that supports it. Grade 4: Open Pumpkin Soup to the matching scene. Say, "We are learning to use a scene to explain a message about sharing responsibilities." Use cat, squirrel and duck figures; bowl and spoon to model one response, then point to the page that supports it.

We Do

Read the scene aloud again. Each learner moves the character props to show the problem, action and result. Ask the Grade 3 learner to retell the events; ask the Grade 4 learner why the action matters. Fade the model; return to the real illustrations before accepting an answer.

You Do

Grade 3: Show a helpful action that repairs the friendship. Grade 4: Use a scene to explain a message about sharing responsibilities. Use one fresh question from a familiar page. Record the response, page/scene and help used.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match familiar props or photos from the already taught scene, sequence two mastered event photos, or use a known Vizzle task. Independent reading is not assumed.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Real books: Pumpkin Soup. Bring the props and response mats in the weekly book guide.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

After the read-aloud, build one sentence from the evidence: Grade 3 retells an event; Grade 4 explains a character's action with a because statement. Keep HMH phonics/spelling at the assessed pattern; teach three words before Friday's spelling check. Writing TEKS 3.7B / 4.7B: compose a response to the actual text. Dictation or AAC composition is an access option; record the response method. Matching a picture alone is reading evidence, not independent written composition. For Grade 4, add an alike/different sentence comparing an idea in today's book with a previously read book; point to evidence in both sources.

8-9 AM read-aloud

Pumpkin Soup by Helen Cooper. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-05 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.5E

3.5E: Represent real-world relationships using number pairs in a table and verbal descriptions. In plain English: Use pairs of numbers in a table to describe a real-world relationship. Today: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

Grade 4 | TEKS 4.5C, 4.5D

4.5C: Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w). In plain English: Use models to explain rectangle area and perimeter formulas. 4.5D: Solve problems related to perimeter and area of rectangles where dimensions are whole numbers. In plain English: Solve rectangle area and perimeter problems with whole-number side lengths. Today: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

I Do

Grade 3: Put 2 supplies in each bag. Build a two-column table: 1 bag / 2 supplies, 2 bags / 4 supplies, 3 bags / 6 supplies. Explain the relationship: two supplies for each bag. Grade 4: Cover a 2 by 3 rectangle with 6 unit squares. Trace and count the 10 unit edges around the outside.

We Do

Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect the 2-by-3 tile model to A = 2 x 3 and P = 2 + 3 + 2 + 3. Use the model to explain why area multiplies rows and columns and perimeter adds all four edges.

You Do

Grade 3: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship. Grade 4: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention.

Science

2026-11-05 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe how sound transfers energy.

I Do

Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Hold a hand near a sounding speaker or observe grains on a membrane near a sound source; compare sound on/off. Connect the observed vibration to energy transfer. Keep sound comfortable.

We Do

Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show the observed change when sound begins and explain that sound carries energy.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Sturdy tissue box, large rubber bands, shaker, flashlight, square tiles, paper circles, event pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only.

Social studies

2026-11-05 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.14F

3.14F: Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic. In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing. Today: Use a source detail to support a claim about the past.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Connect an event to its effect.

I Do

Grade 3: Use a source detail to support a claim about the past. Model with one district source, naming the visible clue. Grade 4: Connect an event to its effect. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Work together with a second example from the same source set. G3 uses source evidence; G4 places one event on a 3-part timeline. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to support a claim about the past. Grade 4: Connect an event to its effect. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources.
