Week 8 | Teaching map

December 7 to 11 | Use evidence to improve a design

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.8B

Explain the relationships among the major and minor characters.

In plain English: Explain how the main and supporting characters are connected.

TEKS 3.8A

Infer the theme of a work, distinguishing theme from topic.

In plain English: Work out the story's message, and distinguish that message from its topic.

TEKS 3.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

In plain English: Write a response that shows you understand a story or information text.

2026-12-07

Identify the character's problem.

2026-12-08

Show how one character responds to another.

2026-12-09

Sequence the problem, action and result.

2026-12-10

Use a scene to explain the story's message.

2026-12-11

Explain a character's action using book evidence.

Grade 4

TEKS 4.9D(i)

Recognize characteristics and structures of informational text, including: the central idea with supporting evidence.

In plain English: Identify an informational text's central idea and the details that support it.

TEKS 4.6G

Evaluate details read to determine key ideas.

In plain English: Decide which details matter and use them to work out the text's key ideas.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

In plain English: Write to show understanding, including how ideas are alike and different across texts.

2026-12-07

Identify what the book is mostly about.

2026-12-08

Choose important details about the artist and use them to explain a key idea.

2026-12-09

Connect a fact to the central idea.

2026-12-10

Use a book detail to support an answer.

2026-12-11

State the central idea and show supporting evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3F

Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines.

In plain English: Use models or number lines to show equivalent fractions.

TEKS 3.3G

Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model.

In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole.

TEKS 3.3H

Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models.

In plain English: Compare fractions with the same numerator or denominator and justify which is greater.

2026-12-07

Match one third with two sixths and show that the amounts are equal.

2026-12-08

Compare three fourths and one fourth; show which is larger and why.

2026-12-09

Compare three fourths and one fourth; show which is larger and why.

2026-12-10

Compare three fourths and one fourth; show which is larger and why.

2026-12-11

Compare three fourths and one fourth; show which is larger and why.

Grade 4

TEKS 4.3A

Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b.

In plain English: Build fractions, including amounts greater than one, by adding unit fractions.

TEKS 4.3B

Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations.

In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations.

TEKS 4.3E

Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations.

In plain English: Model and solve fraction addition and subtraction with equal denominators.

2026-12-07

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-08

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-09

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-10

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-11

Build a fresh like-denominator sum or difference; name one and one half from the model.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

2026-12-07

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-08

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-09

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-10

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-11

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

2026-12-07

Test a pattern in gravity, friction or magnetism.

2026-12-08

Test a pattern in gravity, friction or magnetism.

2026-12-09

Test a pattern in gravity, friction or magnetism.

2026-12-10

Test a pattern in gravity, friction or magnetism.

2026-12-11

Test a pattern in gravity, friction or magnetism.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.1A

Describe how individuals, events, and ideas have changed communities, past and present.

In plain English: Explain how people, events and ideas have changed communities.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

TEKS 3.2B

Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation.

In plain English: Compare how communities meet needs such as government, education, transportation and recreation.

2026-12-07

Identify a community change caused by people.

2026-12-08

Explain an action that improves a community.

2026-12-09

Compare how two communities meet the same need.

2026-12-10

Plan a helpful action and explain the expected result.

2026-12-11

Show a community problem, action and result.

Grade 4

TEKS 4.3C

Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones.

In plain English: Identify leaders who helped establish Texas as a republic and a state.

TEKS 4.3D

Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers.

In plain English: Describe the Republic of Texas's successes, problems and organizations.

TEKS 4.3E

Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War.

In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War.

2026-12-07

Identify a leader of the Republic of Texas.

2026-12-08

Explain a challenge faced by the Republic.

2026-12-09

Describe one success of the Republic.

2026-12-10

Place annexation in the Texas timeline.

2026-12-11

Explain how a Republic event connects to statehood.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.
