Reading and writing

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.8C

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. Today: Show how sharing changes the situation.

Grade 4 | TEKS 4.8A

4.8A: Infer basic themes supported by text evidence. In plain English: Work out a story's message and support it with evidence from the text. Today: Use a scene to support a message about sharing with others.

I Do

Read a short, accessible scene from The Pumpkin Book. Grade 3: say, "We are learning to show how sharing changes the situation." and model one response with a picture, prop or dictated sentence. Grade 4: say, "We are learning to use a scene to support a message about sharing with others." and model a response that points to the same scene as evidence.

We Do

Reread the same scene aloud. Both learners handle the same book, illustrations and props. Grade 3 practices the target by arranging, pointing, speaking, using AAC or dictating a response. Grade 4 practices the separate target by explaining, comparing or citing evidence from that same scene. Fade the model, return to the page, then switch teacher rotations.

You Do

Use one fresh question about The Pumpkin Book. Grade 3: Show how sharing changes the situation. Grade 4: Use a scene to support a message about sharing with others. Record each response, the page or illustration used and the help given.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: The learner not with the teacher uses a previously taught response sort, scene sequence, prop match or known Vizzle task from The Pumpkin Book; the teacher then switches and teaches the other learner from the same scene.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Real books: The Pumpkin Book. Bring the props and response mats in the weekly book guide.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

After the shared read-aloud, each learner makes an individual response from the same book. Grade 3: Show how sharing changes the situation. Grade 4: Use a scene to support a message about sharing with others. Use the planned response mode and record composition separately from oral or picture evidence.

8-9 AM read-aloud

Too Many Pumpkins by Linda White. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention.

Science

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only.

Social studies

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.14F

3.14F: Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic. In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing. Today: Use a source detail to support a claim about the past.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Connect an event to its effect.

I Do

Grade 3: Use a source detail to support a claim about the past. Model with one district source, naming the visible clue. Grade 4: Connect an event to its effect. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Work together with a second example from the same source set. Sentence frame or AAC: "Because ___, ___ happened." Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to support a claim about the past. Grade 4: Connect an event to its effect. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources.
