Reading and writing

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Leaf Man. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Leaf Man. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Leaf Man: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Leaf Man. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Leaf Man | Follow Leaf Man's movement across settings; use the leaf collages and page sequence as evidence.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Leaf Man: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a leaf collage character and map the places it visits in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Leaf Man by Lois Ehlert. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5C, 4.5D

4.5C: Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w). In plain English: Use models to explain rectangle area and perimeter formulas. 4.5D: Solve problems related to perimeter and area of rectangles where dimensions are whole numbers. In plain English: Solve rectangle area and perimeter problems with whole-number side lengths. Today: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

I Do

Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Cover a 2 by 3 rectangle with 6 unit squares. Trace and count the 10 unit edges around the outside.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect the 2-by-3 tile model to A = 2 x 3 and P = 2 + 3 + 2 + 3. Use the model to explain why area multiplies rows and columns and perimeter adds all four edges.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target.

Science

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe how sound transfers energy.

I Do

Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Stretch large rubber bands over a sturdy box. Pluck gently and compare vibrations and sound.Grade 4: Hold a hand near a sounding speaker or observe grains on a membrane near a sound source; compare sound on/off. Connect the observed vibration to energy transfer. Keep sound comfortable.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Complete three trials. Record prediction and observed result. Use the Friday science tasks to assess during the investigation.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show the observed change when sound begins and explain that sound carries energy.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Sturdy tissue box, large rubber bands, shaker, flashlight, square tiles, paper circles, event pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion.

Friday investigation

Use materials connected to Leaf Man: Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Record a prediction, three observations and one evidence-based conclusion.

Social studies

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare two sources and support one claim.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Use a source to explain an event or contribution.

I Do

Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Grade 3: Compare two sources and support one claim. Model with one district source, naming the visible clue. Grade 4: Use a source to explain an event or contribution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Picture + dictated/AAC sentence. Keep the product brief and meaningful. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare two sources and support one claim. Grade 4: Use a source to explain an event or contribution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place.
