Reading and writing

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Fletcher and the Falling Leaves. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Fletcher and the Falling Leaves. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Fletcher and the Falling Leaves: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Fletcher and the Falling Leaves by Julia Rawlinson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target.

Science

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, low ramp, stable blocks, felt, tray, tape, fraction strips, historical pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows.

Social studies

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Tell what both sources agree on.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Explain one person's contribution to the Revolution.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Tell what both sources agree on. Model with one district source, naming the visible clue. Grade 4: Explain one person's contribution to the Revolution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use floor timeline; physically move the card. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Tell what both sources agree on. Grade 4: Explain one person's contribution to the Revolution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community.
