Same routine, every day

Visual sequence: arrive to yoga to library to feelings to preview to read-aloud to subject blocks

8-9 AM | confirmed shared hour

8:00-8:07 yoga. Suggested remaining times: 8:07-8:25 library and return; 8:25-8:32 feelings; 8:32-8:37 learning preview; 8:37-9:00 weekly read-aloud, response and transition. Adjust library timing once to fit the campus schedule, then keep the sequence stable.

Math | 38-minute routine

5 minutes familiar fluency. 3 minutes I Do with the current STEMscopes skill. 5 minutes We Do. Two 10-minute rotations: teacher spends about 6 minutes on the enrolled-grade skill and 4 minutes on placement-selected Bridges work; the other student uses mastered practice or known Vizzle. Finish with 5 minutes of fresh responses and recording. Extend fluency to 10 minutes if the block allows; schedule longer Bridges lessons when needed without compressing program requirements.

All other subjects

Shared start to I Do (3 minutes) to We Do (5 minutes) to first rotation (8-10 minutes) to switch (8-10 minutes) to You Do (3-5 minutes) to record and reset. Set later clock times around the real campus schedule.

Independent work

Previously taught only. Small task tray, clear visual directions, finished basket, planned break signal. Do not assume Grade 4 is more independent. Keep science experiment materials at the supervised station.

Friday

Keep the same visual sequence and teacher rotations. Replace the final practice with three-item checks for spelling, reading, math and science. Every other instructional Friday, use the investigation as the science check.

IEP goals

Awaiting upload. Enter the exact goal, baseline, unit of measurement, response conditions, schedule and reporting dates before calling an activity an IEP probe.

TEKS explained

Grade 3 and Grade 4 | Standards used in this nine-week plan

Actual student-expectation wording is followed by a plain-English explanation. Capitalization and final punctuation are normalized; 9D(i) includes its introductory clause. These adapted tasks provide access to the standards and do not by themselves establish mastery of every part.

Reading and writing

Grade 3

TEKS 3.6G

Evaluate details read to determine key ideas.

In plain English: Decide which details matter and use them to work out the text's key ideas.

TEKS 3.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

TEKS 3.8A

Infer the theme of a work, distinguishing theme from topic.

In plain English: Work out the story's message, and distinguish that message from its topic.

TEKS 3.8B

Explain the relationships among the major and minor characters.

In plain English: Explain how the main and supporting characters are connected.

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.9C

Discuss elements of drama such as characters, dialogue, setting, and acts.

In plain English: Recognize and discuss the characters, spoken lines, setting and acts in a play.

TEKS 3.9D(i)

Recognize characteristics and structures of informational text, including: the central idea with supporting evidence.

In plain English: Identify an informational text's central idea and the details that support it.

TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

In plain English: Write a response that shows you understand a story or information text.

Grade 4

TEKS 4.6G

Evaluate details read to determine key ideas.

In plain English: Decide which details matter and use them to work out the text's key ideas.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

TEKS 4.8A

Infer basic themes supported by text evidence.

In plain English: Work out a story's message and support it with evidence from the text.

TEKS 4.8B

Explain the interactions of the characters and the changes they undergo.

In plain English: Explain how characters affect one another and how they change during the story.

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.9D(i)

Recognize characteristics and structures of informational text, including: the central idea with supporting evidence.

In plain English: Identify an informational text's central idea and the details that support it.

TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

In plain English: Write to show understanding, including how ideas are alike and different across texts.

Math

Grade 3

TEKS 3.3A

Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines.

In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths.

TEKS 3.3C

Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number.

In plain English: Explain that a unit fraction is one equal part of a whole.

TEKS 3.3D

Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b.

In plain English: Build and break apart a fraction as a sum of unit fractions.

TEKS 3.3F

Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines.

In plain English: Use models or number lines to show equivalent fractions.

TEKS 3.3G

Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model.

In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole.

TEKS 3.3H

Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models.

In plain English: Compare fractions with the same numerator or denominator and justify which is greater.

TEKS 3.4D

Determine the total number of objects when equally-sized groups of objects are combined or arranged in arrays up to 10 by 10.

In plain English: Find the total in equal groups or arrays up to 10 by 10.

TEKS 3.4E

Represent multiplication facts by using a variety of approaches such as repeated addition, equal-sized groups, arrays, area models, equal jumps on a number line, and skip counting.

In plain English: Show multiplication using groups, arrays, repeated addition, jumps or skip counting.

TEKS 3.4H

Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally.

In plain English: Find how many objects are in each group after sharing equally.

TEKS 3.4J

Determine a quotient using the relationship between multiplication and division.

In plain English: Use a related multiplication fact to solve a division problem.

TEKS 3.5E

Represent real-world relationships using number pairs in a table and verbal descriptions.

In plain English: Use pairs of numbers in a table to describe a real-world relationship.

TEKS 3.7D

Determine when it is appropriate to use measurements of liquid volume (capacity) or weight.

In plain English: Decide whether a situation calls for measuring weight or liquid capacity.

TEKS 3.7E

Determine liquid volume (capacity) or weight using appropriate units and tools.

In plain English: Measure weight or liquid capacity with the right tool and units.

Grade 4

TEKS 4.3A

Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b.

In plain English: Build fractions, including amounts greater than one, by adding unit fractions.

TEKS 4.3B

Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations.

In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations.

TEKS 4.3C

Determine if two given fractions are equivalent using a variety of methods.

In plain English: Determine whether two fractions name the same amount.

TEKS 4.3D

Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <.

In plain English: Compare fractions with different numerators and denominators using >, = or <.

TEKS 4.3E

Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations.

In plain English: Model and solve fraction addition and subtraction with equal denominators.

TEKS 4.4E

Represent the quotient of up to a four-digit whole number divided by a one-digit whole number using arrays, area models, or equations.

In plain English: Model division of up to a four-digit number by a one-digit number.

TEKS 4.4F

Use strategies and algorithms, including the standard algorithm, to divide up to a four-digit dividend by a one-digit divisor.

In plain English: Use division strategies and the standard algorithm with up to four-digit dividends and one-digit divisors.

TEKS 4.5A

Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity.

In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown.

TEKS 4.5B

Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence.

In plain English: Use a rule, an input-output table and expressions to represent a number pattern.

TEKS 4.5C

Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w).

In plain English: Use models to explain rectangle area and perimeter formulas.

TEKS 4.5D

Solve problems related to perimeter and area of rectangles where dimensions are whole numbers.

In plain English: Solve rectangle area and perimeter problems with whole-number side lengths.

Science

Grade 3

TEKS 3.7A

Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls.

In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching.

TEKS 3.7B

Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons.

In plain English: Plan and carry out a test showing how pushes and pulls change position or motion.

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

Grade 4

TEKS 4.6B

Investigate and compare a variety of mixtures, including solutions that are composed of liquids in liquids and solids in liquids.

In plain English: Investigate and compare mixtures, including liquids mixed with liquids and solids with liquids.

TEKS 4.6C

Demonstrate that matter is conserved when mixtures such as soil and water or oil and water are formed.

In plain English: Show that matter is still present when materials are combined into a mixture.

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

TEKS 4.8B

Identify conductors and insulators of thermal and electrical energy.

In plain English: Identify materials that let heat or electricity pass through and materials that resist it.

TEKS 4.8C

Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy.

In plain English: Show that electricity travels around a closed path and can produce light and heat.

Social studies

Grade 3

TEKS 3.14A

Gather information, including historical and current events and geographic data, about the community using a variety of resources.

In plain English: Gather community information from different sources, including history, current events and geography.

TEKS 3.14B

Differentiate and compare the information about a specific issue or event provided in primary and secondary sources.

In plain English: Compare what firsthand sources and later accounts say about the same issue or event.

TEKS 3.14F

Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic.

In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing.

TEKS 3.1A

Describe how individuals, events, and ideas have changed communities, past and present.

In plain English: Explain how people, events and ideas have changed communities.

TEKS 3.2B

Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation.

In plain English: Compare how communities meet needs such as government, education, transportation and recreation.

TEKS 3.9A

Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting.

In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

Grade 4

TEKS 4.2A

Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion.

In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion.

TEKS 4.2B

Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas.

In plain English: Explain named explorers' accomplishments and their effects on Texas settlement.

TEKS 4.3A

Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto.

In plain English: Explain causes, major events and effects of the Texas Revolution.

TEKS 4.3B

Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza.

In plain English: Explain how important individuals contributed to the Texas Revolution.

TEKS 4.3C

Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones.

In plain English: Identify leaders who helped establish Texas as a republic and a state.

TEKS 4.3D

Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers.

In plain English: Describe the Republic of Texas's successes, problems and organizations.

TEKS 4.3E

Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War.

In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War.

Authoritative sources, checked October 12, 2026

Texas Education Agency, grade-level TEKS, revised June 2024. Grade 3: https://tea.texas.gov/curriculum-and-instruction/curriculum-standards/grade3-teks-062024.pdf Grade 4: https://tea.texas.gov/curriculum-and-instruction/curriculum-standards/grade4-teks-062024.pdf

Week 1 | Teaching map

October 13 to 16 | Helpers solve a problem by sharing what they have.

Book-centered week

Room on the Broom | Helpers solve a problem by sharing what they have. Story focus: Notice the problem, the helper's action, and what changes next.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-10-13

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-14

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-15

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-16

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-10-13

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-14

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-15

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-16

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.4D

Determine the total number of objects when equally-sized groups of objects are combined or arranged in arrays up to 10 by 10.

In plain English: Find the total in equal groups or arrays up to 10 by 10.

TEKS 3.4E

Represent multiplication facts by using a variety of approaches such as repeated addition, equal-sized groups, arrays, area models, equal jumps on a number line, and skip counting.

In plain English: Show multiplication using groups, arrays, repeated addition, jumps or skip counting.

TEKS 3.4H

Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally.

In plain English: Find how many objects are in each group after sharing equally.

TEKS 3.4J

Determine a quotient using the relationship between multiplication and division.

In plain English: Use a related multiplication fact to solve a division problem.

2026-10-13

Build another equal-group model and state or select the matching fact.

2026-10-14

Build another equal-group model and state or select the matching fact.

2026-10-15

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-16

Share 6 counters between 2 plates, then show how many are in each group.

Grade 4

TEKS 4.4E

Represent the quotient of up to a four-digit whole number divided by a one-digit whole number using arrays, area models, or equations.

In plain English: Model division of up to a four-digit number by a one-digit number.

TEKS 4.4F

Use strategies and algorithms, including the standard algorithm, to divide up to a four-digit dividend by a one-digit divisor.

In plain English: Use division strategies and the standard algorithm with up to four-digit dividends and one-digit divisors.

2026-10-13

Build a fresh equal-sharing example and identify the quotient.

2026-10-14

Build a fresh equal-sharing example and identify the quotient.

2026-10-15

Build a fresh equal-sharing example and identify the quotient.

2026-10-16

Build a fresh equal-sharing example and identify the quotient.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.7A

Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls.

In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching.

TEKS 3.7B

Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons.

In plain English: Plan and carry out a test showing how pushes and pulls change position or motion.

2026-10-13

Show how a push or pull changes motion.

2026-10-14

Show how a push or pull changes motion.

2026-10-15

Show how a push or pull changes motion.

2026-10-16

Show how a push or pull changes motion.

Grade 4

TEKS 4.6B

Investigate and compare a variety of mixtures, including solutions that are composed of liquids in liquids and solids in liquids.

In plain English: Investigate and compare mixtures, including liquids mixed with liquids and solids with liquids.

TEKS 4.6C

Demonstrate that matter is conserved when mixtures such as soil and water or oil and water are formed.

In plain English: Show that matter is still present when materials are combined into a mixture.

2026-10-13

Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

2026-10-14

Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

2026-10-15

Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

2026-10-16

Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

TEKS 3.9A

Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting.

In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government.

2026-10-13

Explain how a helpful action serves the community.

2026-10-14

Use a source detail to show responsible citizenship.

2026-10-15

Choose a helpful action and explain its effect.

2026-10-16

Show one example of responsibility with evidence.

Grade 4

TEKS 4.2B

Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas.

In plain English: Explain named explorers' accomplishments and their effects on Texas settlement.

TEKS 4.2A

Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion.

In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion.

2026-10-13

Connect a named explorer to an accomplishment.

2026-10-14

Find a route or result in a district map/source.

2026-10-15

Explain one effect of an explorer's actions.

2026-10-16

Match an explorer, motivation and result.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 2 | Teaching map

October 19 to 23 | A difficult problem changes when everyone works together.

Book-centered week

Big Pumpkin | A difficult problem changes when everyone works together. Story focus: Sequence the stuck-pumpkin problem, the group's attempts, and the shared solution.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-10-19

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-20

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-21

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-22

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-23

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-10-19

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-20

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-21

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-22

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-23

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.4H

Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally.

In plain English: Find how many objects are in each group after sharing equally.

TEKS 3.4J

Determine a quotient using the relationship between multiplication and division.

In plain English: Use a related multiplication fact to solve a division problem.

2026-10-19

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-20

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-21

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-22

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-23

Share 6 counters between 2 plates, then show how many are in each group.

Grade 4

TEKS 4.5A

Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity.

In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown.

2026-10-19

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-20

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-21

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-22

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-23

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.7A

Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls.

In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching.

TEKS 3.7B

Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons.

In plain English: Plan and carry out a test showing how pushes and pulls change position or motion.

2026-10-19

Show how a push or pull changes motion.

2026-10-20

Show how a push or pull changes motion.

2026-10-21

Show how a push or pull changes motion.

2026-10-22

Show how a push or pull changes motion.

2026-10-23

Show how a push or pull changes motion.

Grade 4

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

2026-10-19

Observe energy moving from one object to another.

2026-10-20

Observe energy moving from one object to another.

2026-10-21

Observe energy moving from one object to another.

2026-10-22

Observe energy moving from one object to another.

2026-10-23

Observe energy moving from one object to another.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.9A

Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting.

In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

2026-10-19

Name a responsible action.

2026-10-20

Explain how a helpful action serves the community.

2026-10-21

Use a source detail to show responsible citizenship.

2026-10-22

Choose a helpful action and explain its effect.

2026-10-23

Show one example of responsibility with evidence.

Grade 4

TEKS 4.2A

Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion.

In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion.

TEKS 4.2B

Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas.

In plain English: Explain named explorers' accomplishments and their effects on Texas settlement.

2026-10-19

Show why Europeans explored Texas.

2026-10-20

Connect a named explorer to an accomplishment.

2026-10-21

Find a route or result in a district map/source.

2026-10-22

Explain one effect of an explorer's actions.

2026-10-23

Match an explorer, motivation and result.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 3 | Teaching map

October 26 to 30 | Everyone contributes a job so a shared plan can work.

Book-centered week

Pumpkin Soup | Everyone contributes a job so a shared plan can work. Story focus: Identify the characters' jobs, the conflict about changing roles, and the repaired plan.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-10-26

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-27

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-28

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-29

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-10-30

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-10-26

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-27

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-28

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-29

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-10-30

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.4H

Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally.

In plain English: Find how many objects are in each group after sharing equally.

TEKS 3.4J

Determine a quotient using the relationship between multiplication and division.

In plain English: Use a related multiplication fact to solve a division problem.

TEKS 3.5E

Represent real-world relationships using number pairs in a table and verbal descriptions.

In plain English: Use pairs of numbers in a table to describe a real-world relationship.

2026-10-26

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-27

Share 6 counters between 2 plates, then show how many are in each group.

2026-10-28

Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

2026-10-29

Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

2026-10-30

Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

Grade 4

TEKS 4.5A

Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity.

In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown.

TEKS 4.5C

Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w).

In plain English: Use models to explain rectangle area and perimeter formulas.

TEKS 4.5D

Solve problems related to perimeter and area of rectangles where dimensions are whole numbers.

In plain English: Solve rectangle area and perimeter problems with whole-number side lengths.

2026-10-26

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-27

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-28

Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

2026-10-29

Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

2026-10-30

Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

2026-10-26

Identify light, sound, thermal and mechanical energy.

2026-10-27

Identify light, sound, thermal and mechanical energy.

2026-10-28

Identify light, sound, thermal and mechanical energy.

2026-10-29

Identify light, sound, thermal and mechanical energy.

2026-10-30

Identify light, sound, thermal and mechanical energy.

Grade 4

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

TEKS 4.8B

Identify conductors and insulators of thermal and electrical energy.

In plain English: Identify materials that let heat or electricity pass through and materials that resist it.

TEKS 4.8C

Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy.

In plain English: Show that electricity travels around a closed path and can produce light and heat.

2026-10-26

Observe energy transfer, test materials and build a closed circuit.

2026-10-27

Observe energy transfer, test materials and build a closed circuit.

2026-10-28

Observe energy transfer, test materials and build a closed circuit.

2026-10-29

Observe energy transfer, test materials and build a closed circuit.

2026-10-30

Observe energy transfer, test materials and build a closed circuit.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.9A

Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting.

In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

2026-10-26

Name a responsible action.

2026-10-27

Explain how a helpful action serves the community.

2026-10-28

Use a source detail to show responsible citizenship.

2026-10-29

Choose a helpful action and explain its effect.

2026-10-30

Show one example of responsibility with evidence.

Grade 4

TEKS 4.2A

Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion.

In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion.

TEKS 4.2B

Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas.

In plain English: Explain named explorers' accomplishments and their effects on Texas settlement.

2026-10-26

Show why Europeans explored Texas.

2026-10-27

Connect a named explorer to an accomplishment.

2026-10-28

Find a route or result in a district map/source.

2026-10-29

Explain one effect of an explorer's actions.

2026-10-30

Match an explorer, motivation and result.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 4 | Teaching map

November 2 to 6 | Autumn leaves travel wherever the wind carries them.

Book-centered week

Leaf Man | Autumn leaves travel wherever the wind carries them. Story focus: Follow Leaf Man's movement across settings; use the leaf collages and page sequence as evidence.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-11-04

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-05

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-06

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-11-04

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-05

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-06

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.5E

Represent real-world relationships using number pairs in a table and verbal descriptions.

In plain English: Use pairs of numbers in a table to describe a real-world relationship.

TEKS 3.3A

Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines.

In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths.

TEKS 3.3C

Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number.

In plain English: Explain that a unit fraction is one equal part of a whole.

2026-11-04

Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

2026-11-05

Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

2026-11-06

Select 3 of the 4 equal parts and show three fourths.

Grade 4

TEKS 4.5C

Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w).

In plain English: Use models to explain rectangle area and perimeter formulas.

TEKS 4.5D

Solve problems related to perimeter and area of rectangles where dimensions are whole numbers.

In plain English: Solve rectangle area and perimeter problems with whole-number side lengths.

2026-11-04

Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

2026-11-05

Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

2026-11-06

Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

2026-11-04

Identify light, sound, thermal and mechanical energy.

2026-11-05

Identify light, sound, thermal and mechanical energy.

2026-11-06

Identify light, sound, thermal and mechanical energy.

Grade 4

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

2026-11-04

Observe how sound transfers energy.

2026-11-05

Observe how sound transfers energy.

2026-11-06

Observe how sound transfers energy.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.14B

Differentiate and compare the information about a specific issue or event provided in primary and secondary sources.

In plain English: Compare what firsthand sources and later accounts say about the same issue or event.

TEKS 3.14F

Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic.

In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing.

2026-11-04

Tell what both sources agree on.

2026-11-05

Use a source detail to support a claim about the past.

2026-11-06

Compare two sources and support one claim.

Grade 4

TEKS 4.3B

Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza.

In plain English: Explain how important individuals contributed to the Texas Revolution.

TEKS 4.3A

Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto.

In plain English: Explain causes, major events and effects of the Texas Revolution.

2026-11-04

Explain one person's contribution to the Revolution.

2026-11-05

Connect an event to its effect.

2026-11-06

Use a source to explain an event or contribution.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 5 | Teaching map

November 9 to 13 | Friends explore autumn places and collect leaves together.

Book-centered week

We're Going on a Leaf Hunt | Friends explore autumn places and collect leaves together. Story focus: Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Reading and writing

Grade 3

TEKS 3.9D(i)

Recognize characteristics and structures of informational text, including: the central idea with supporting evidence.

In plain English: Identify an informational text's central idea and the details that support it.

2026-11-09

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-10

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-11

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-12

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-13

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.9D(i)

Recognize characteristics and structures of informational text, including: the central idea with supporting evidence.

In plain English: Identify an informational text's central idea and the details that support it.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-11-09

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-10

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-11

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-12

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-13

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3A

Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines.

In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths.

TEKS 3.3C

Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number.

In plain English: Explain that a unit fraction is one equal part of a whole.

TEKS 3.3D

Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b.

In plain English: Build and break apart a fraction as a sum of unit fractions.

2026-11-09

Select 3 of the 4 equal parts and show three fourths.

2026-11-10

Select 3 of the 4 equal parts and show three fourths.

2026-11-11

Select 3 of the 4 equal parts and show three fourths.

2026-11-12

Select 3 of the 4 equal parts and show three fourths.

2026-11-13

Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4

TEKS 4.5B

Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence.

In plain English: Use a rule, an input-output table and expressions to represent a number pattern.

2026-11-09

Continue 2, 4, 6; then find output 7 for input 5 under add 2.

2026-11-10

Continue 2, 4, 6; then find output 7 for input 5 under add 2.

2026-11-11

Continue 2, 4, 6; then find output 7 for input 5 under add 2.

2026-11-12

Continue 2, 4, 6; then find output 7 for input 5 under add 2.

2026-11-13

Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

2026-11-09

Identify light, sound, thermal and mechanical energy.

2026-11-10

Identify light, sound, thermal and mechanical energy.

2026-11-11

Identify light, sound, thermal and mechanical energy.

2026-11-12

Identify light, sound, thermal and mechanical energy.

2026-11-13

Identify light, sound, thermal and mechanical energy.

Grade 4

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

TEKS 4.8B

Identify conductors and insulators of thermal and electrical energy.

In plain English: Identify materials that let heat or electricity pass through and materials that resist it.

TEKS 4.8C

Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy.

In plain English: Show that electricity travels around a closed path and can produce light and heat.

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

2026-11-09

Observe energy transfer, test materials and build a closed circuit.

2026-11-10

Observe energy transfer, test materials and build a closed circuit.

2026-11-11

Observe energy transfer, test materials and build a closed circuit.

2026-11-12

Test a pattern in gravity, friction or magnetism.

2026-11-13

Test a pattern in gravity, friction or magnetism.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.14A

Gather information, including historical and current events and geographic data, about the community using a variety of resources.

In plain English: Gather community information from different sources, including history, current events and geography.

TEKS 3.14B

Differentiate and compare the information about a specific issue or event provided in primary and secondary sources.

In plain English: Compare what firsthand sources and later accounts say about the same issue or event.

TEKS 3.14F

Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic.

In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing.

2026-11-09

Notice who made a historical source.

2026-11-10

Compare an original photo with a later account of the same event.

2026-11-11

Tell what both sources agree on.

2026-11-12

Use a source detail to support a claim about the past.

2026-11-13

Compare two sources and support one claim.

Grade 4

TEKS 4.3A

Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto.

In plain English: Explain causes, major events and effects of the Texas Revolution.

TEKS 4.3B

Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza.

In plain English: Explain how important individuals contributed to the Texas Revolution.

2026-11-09

Identify a cause of the Texas Revolution.

2026-11-10

Place two major Revolution events in order.

2026-11-11

Explain one person's contribution to the Revolution.

2026-11-12

Connect an event to its effect.

2026-11-13

Use a source to explain an event or contribution.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 6 | Teaching map

November 16 to 20 | Fletcher worries when his favorite tree changes in autumn.

Book-centered week

Fletcher and the Falling Leaves | Fletcher worries when his favorite tree changes in autumn. Story focus: Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-11-16

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-17

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-18

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-19

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-11-20

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-11-16

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-17

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-18

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-19

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-11-20

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3C

Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number.

In plain English: Explain that a unit fraction is one equal part of a whole.

TEKS 3.3D

Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b.

In plain English: Build and break apart a fraction as a sum of unit fractions.

2026-11-16

Make one whole from fourths; separate it into two smaller fractional amounts.

2026-11-17

Make one whole from fourths; separate it into two smaller fractional amounts.

2026-11-18

Make one whole from fourths; separate it into two smaller fractional amounts.

2026-11-19

Make one whole from fourths; separate it into two smaller fractional amounts.

2026-11-20

Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4

TEKS 4.3C

Determine if two given fractions are equivalent using a variety of methods.

In plain English: Determine whether two fractions name the same amount.

TEKS 4.3D

Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <.

In plain English: Compare fractions with different numerators and denominators using >, = or <.

2026-11-16

Compare one half with three fourths using matching whole lengths.

2026-11-17

Compare one half with three fourths using matching whole lengths.

2026-11-18

Compare one half with three fourths using matching whole lengths.

2026-11-19

Compare one half with three fourths using matching whole lengths.

2026-11-20

Compare one half with three fourths using matching whole lengths.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

2026-11-16

Identify everyday forms of energy.

2026-11-17

Identify everyday forms of energy.

2026-11-18

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-11-19

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-11-20

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

2026-11-16

Test a pattern in gravity, friction or magnetism.

2026-11-17

Test a pattern in gravity, friction or magnetism.

2026-11-18

Test a pattern in gravity, friction or magnetism.

2026-11-19

Test a pattern in gravity, friction or magnetism.

2026-11-20

Test a pattern in gravity, friction or magnetism.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.14A

Gather information, including historical and current events and geographic data, about the community using a variety of resources.

In plain English: Gather community information from different sources, including history, current events and geography.

TEKS 3.14B

Differentiate and compare the information about a specific issue or event provided in primary and secondary sources.

In plain English: Compare what firsthand sources and later accounts say about the same issue or event.

TEKS 3.14F

Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic.

In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing.

2026-11-16

Notice who made a historical source.

2026-11-17

Compare an original photo with a later account of the same event.

2026-11-18

Tell what both sources agree on.

2026-11-19

Use a source detail to support a claim about the past.

2026-11-20

Compare two sources and support one claim.

Grade 4

TEKS 4.3A

Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto.

In plain English: Explain causes, major events and effects of the Texas Revolution.

TEKS 4.3B

Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza.

In plain English: Explain how important individuals contributed to the Texas Revolution.

2026-11-16

Identify a cause of the Texas Revolution.

2026-11-17

Place two major Revolution events in order.

2026-11-18

Explain one person's contribution to the Revolution.

2026-11-19

Connect an event to its effect.

2026-11-20

Use a source to explain an event or contribution.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 7 | Teaching map

November 30 to December 4 | One tree changes through the seasons, and each season brings different observations.

Book-centered week

The Seasons of Arnold's Apple Tree | One tree changes through the seasons, and each season brings different observations. Story focus: Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-11-30

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-01

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-02

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-03

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-04

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-11-30

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-01

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-02

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-03

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-04

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3F

Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines.

In plain English: Use models or number lines to show equivalent fractions.

TEKS 3.3G

Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model.

In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole.

2026-11-30

Match one third with two sixths and show that the amounts are equal.

2026-12-01

Match one third with two sixths and show that the amounts are equal.

2026-12-02

Match one third with two sixths and show that the amounts are equal.

2026-12-03

Match one third with two sixths and show that the amounts are equal.

2026-12-04

Match one third with two sixths and show that the amounts are equal.

Grade 4

TEKS 4.3C

Determine if two given fractions are equivalent using a variety of methods.

In plain English: Determine whether two fractions name the same amount.

TEKS 4.3D

Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <.

In plain English: Compare fractions with different numerators and denominators using >, = or <.

2026-11-30

Compare one half with three fourths using matching whole lengths.

2026-12-01

Compare one half with three fourths using matching whole lengths.

2026-12-02

Compare one half with three fourths using matching whole lengths.

2026-12-03

Compare one half with three fourths using matching whole lengths.

2026-12-04

Compare one half with three fourths using matching whole lengths.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

2026-11-30

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-01

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-02

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-03

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-04

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

2026-11-30

Test a pattern in gravity, friction or magnetism.

2026-12-01

Test a pattern in gravity, friction or magnetism.

2026-12-02

Test a pattern in gravity, friction or magnetism.

2026-12-03

Test a pattern in gravity, friction or magnetism.

2026-12-04

Test a pattern in gravity, friction or magnetism.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.1A

Describe how individuals, events, and ideas have changed communities, past and present.

In plain English: Explain how people, events and ideas have changed communities.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

TEKS 3.2B

Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation.

In plain English: Compare how communities meet needs such as government, education, transportation and recreation.

2026-11-30

Identify a community change caused by people.

2026-12-01

Explain an action that improves a community.

2026-12-02

Compare how two communities meet the same need.

2026-12-03

Plan a helpful action and explain the expected result.

2026-12-04

Show a community problem, action and result.

Grade 4

TEKS 4.3C

Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones.

In plain English: Identify leaders who helped establish Texas as a republic and a state.

TEKS 4.3D

Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers.

In plain English: Describe the Republic of Texas's successes, problems and organizations.

TEKS 4.3E

Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War.

In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War.

2026-11-30

Identify a leader of the Republic of Texas.

2026-12-01

Explain a challenge faced by the Republic.

2026-12-02

Describe one success of the Republic.

2026-12-03

Place annexation in the Texas timeline.

2026-12-04

Explain how a Republic event connects to statehood.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 8 | Teaching map

December 7 to 11 | A family prepares for winter, and each penguin responds in a different way.

Book-centered week

Little Penguins | A family prepares for winter, and each penguin responds in a different way. Story focus: Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-12-07

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-08

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-09

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-10

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-11

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-12-07

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-08

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-09

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-10

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-11

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3F

Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines.

In plain English: Use models or number lines to show equivalent fractions.

TEKS 3.3G

Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model.

In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole.

TEKS 3.3H

Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models.

In plain English: Compare fractions with the same numerator or denominator and justify which is greater.

2026-12-07

Match one third with two sixths and show that the amounts are equal.

2026-12-08

Compare three fourths and one fourth; show which is larger and why.

2026-12-09

Compare three fourths and one fourth; show which is larger and why.

2026-12-10

Compare three fourths and one fourth; show which is larger and why.

2026-12-11

Compare three fourths and one fourth; show which is larger and why.

Grade 4

TEKS 4.3A

Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b.

In plain English: Build fractions, including amounts greater than one, by adding unit fractions.

TEKS 4.3B

Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations.

In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations.

TEKS 4.3E

Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations.

In plain English: Model and solve fraction addition and subtraction with equal denominators.

2026-12-07

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-08

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-09

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-10

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-11

Build a fresh like-denominator sum or difference; name one and one half from the model.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

2026-12-07

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-08

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-09

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-10

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-11

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

2026-12-07

Test a pattern in gravity, friction or magnetism.

2026-12-08

Test a pattern in gravity, friction or magnetism.

2026-12-09

Test a pattern in gravity, friction or magnetism.

2026-12-10

Test a pattern in gravity, friction or magnetism.

2026-12-11

Test a pattern in gravity, friction or magnetism.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.1A

Describe how individuals, events, and ideas have changed communities, past and present.

In plain English: Explain how people, events and ideas have changed communities.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

TEKS 3.2B

Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation.

In plain English: Compare how communities meet needs such as government, education, transportation and recreation.

2026-12-07

Identify a community change caused by people.

2026-12-08

Explain an action that improves a community.

2026-12-09

Compare how two communities meet the same need.

2026-12-10

Plan a helpful action and explain the expected result.

2026-12-11

Show a community problem, action and result.

Grade 4

TEKS 4.3C

Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones.

In plain English: Identify leaders who helped establish Texas as a republic and a state.

TEKS 4.3D

Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers.

In plain English: Describe the Republic of Texas's successes, problems and organizations.

TEKS 4.3E

Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War.

In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War.

2026-12-07

Identify a leader of the Republic of Texas.

2026-12-08

Explain a challenge faced by the Republic.

2026-12-09

Describe one success of the Republic.

2026-12-10

Place annexation in the Texas timeline.

2026-12-11

Explain how a Republic event connects to statehood.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Week 9 | Teaching map

December 14 to 18 | Peter explores how a snowy day changes the places he knows.

Book-centered week

The Snowy Day | Peter explores how a snowy day changes the places he knows. Story focus: Sequence Peter's winter experiences and explain what he notices from morning to the next day.

Reading and writing

Grade 3

TEKS 3.8C

Analyze plot elements, including the sequence of events, the conflict, and the resolution.

In plain English: Explain the order of story events, the problem and how it is solved.

TEKS 3.7D

Retell and paraphrase texts in ways that maintain meaning and logical order.

In plain English: Retell or put a text into your own words while keeping its meaning and order.

2026-12-14

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-15

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-16

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-17

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

2026-12-18

Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4

TEKS 4.8C

Analyze plot elements, including the rising action, climax, falling action, and resolution.

In plain English: Explain how a story builds to its turning point and moves toward a solution.

TEKS 4.7C

Use text evidence to support an appropriate response.

In plain English: Support an answer with something the text actually says or shows.

2026-12-14

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-15

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-16

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-17

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

2026-12-18

Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Math

Grade 3

TEKS 3.3H

Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models.

In plain English: Compare fractions with the same numerator or denominator and justify which is greater.

TEKS 3.7D

Determine when it is appropriate to use measurements of liquid volume (capacity) or weight.

In plain English: Decide whether a situation calls for measuring weight or liquid capacity.

TEKS 3.7E

Determine liquid volume (capacity) or weight using appropriate units and tools.

In plain English: Measure weight or liquid capacity with the right tool and units.

2026-12-14

Compare three fourths and one fourth; show which is larger and why.

2026-12-15

Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

2026-12-16

Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

2026-12-17

Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

2026-12-18

Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

Grade 4

TEKS 4.3A

Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b.

In plain English: Build fractions, including amounts greater than one, by adding unit fractions.

TEKS 4.3B

Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations.

In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations.

TEKS 4.3E

Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations.

In plain English: Model and solve fraction addition and subtraction with equal denominators.

2026-12-14

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-15

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-16

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-17

Build a fresh like-denominator sum or difference; name one and one half from the model.

2026-12-18

Build a fresh like-denominator sum or difference; name one and one half from the model.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Science

Grade 3

TEKS 3.8A

Identify everyday examples of energy, including light, sound, thermal, and mechanical.

In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy.

TEKS 3.8B

Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy.

In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy.

2026-12-14

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-15

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-16

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-17

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

2026-12-18

Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4

TEKS 4.7

Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object.

In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism.

TEKS 4.8A

Investigate and identify the transfer of energy by objects in motion, waves in water, and sound.

In plain English: Investigate how moving objects, water waves and sound transfer energy.

2026-12-14

Use a tested model to explain a force or energy transfer.

2026-12-15

Use a tested model to explain a force or energy transfer.

2026-12-16

Use a tested model to explain a force or energy transfer.

2026-12-17

Use a tested model to explain a force or energy transfer.

2026-12-18

Use a tested model to explain a force or energy transfer.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Social studies

Grade 3

TEKS 3.1A

Describe how individuals, events, and ideas have changed communities, past and present.

In plain English: Explain how people, events and ideas have changed communities.

TEKS 3.9C

Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting.

In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting.

TEKS 3.2B

Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation.

In plain English: Compare how communities meet needs such as government, education, transportation and recreation.

2026-12-14

Identify a community change caused by people.

2026-12-15

Explain an action that improves a community.

2026-12-16

Compare how two communities meet the same need.

2026-12-17

Plan a helpful action and explain the expected result.

2026-12-18

Show a community problem, action and result.

Grade 4

TEKS 4.3C

Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones.

In plain English: Identify leaders who helped establish Texas as a republic and a state.

TEKS 4.3D

Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers.

In plain English: Describe the Republic of Texas's successes, problems and organizations.

TEKS 4.3E

Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War.

In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War.

2026-12-14

Identify a leader of the Republic of Texas.

2026-12-15

Explain a challenge faced by the Republic.

2026-12-16

Describe one success of the Republic.

2026-12-17

Place annexation in the Texas timeline.

2026-12-18

Explain how a Republic event connects to statehood.

Teach and collect evidence

Use the dated lesson sheet for I Do, We Do, You Do and the independent rotation. Record the exact response, correct/total and support separately. Friday checks use the same targets.

Reading and writing

2026-10-13 | Week 1 | People solve problems

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Room on the Broom. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Room on the Broom. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Room on the Broom: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Room on the Broom. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Room on the Broom | Notice the problem, the helper's action, and what changes next.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Room on the Broom: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a helper collage or build a paper broom with labeled passengers. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Room on the Broom by Julia Donaldson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-13 | Week 1 | People solve problems

Grade 3 | TEKS 3.4D, 3.4E

3.4D: Determine the total number of objects when equally-sized groups of objects are combined or arranged in arrays up to 10 by 10. In plain English: Find the total in equal groups or arrays up to 10 by 10. 3.4E: Represent multiplication facts by using a variety of approaches such as repeated addition, equal-sized groups, arrays, area models, equal jumps on a number line, and skip counting. In plain English: Show multiplication using groups, arrays, repeated addition, jumps or skip counting. Today: Build another equal-group model and state or select the matching fact.

Grade 4 | TEKS 4.4E, 4.4F

4.4E: Represent the quotient of up to a four-digit whole number divided by a one-digit whole number using arrays, area models, or equations. In plain English: Model division of up to a four-digit number by a one-digit number. 4.4F: Use strategies and algorithms, including the standard algorithm, to divide up to a four-digit dividend by a one-digit divisor. In plain English: Use division strategies and the standard algorithm with up to four-digit dividends and one-digit divisors. Today: Build a fresh equal-sharing example and identify the quotient.

I Do

Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Grade 3: Make 2 groups of 3 counters; connect equal groups to 2 x 3 = 6. Grade 4: Share 12 counters among 3 cups; connect 4 in each cup to 12 / 3 = 4.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect 12 / 3 to the written division algorithm: divide 12 ones into 3 groups, write 4, multiply 4 x 3, subtract 12, and show remainder 0. Extend with place-value blocks to 132 / 3 = 44 when ready; preserve the same place-value steps.

You Do

Grade 3: Build another equal-group model and state or select the matching fact. Grade 4: Build a fresh equal-sharing example and identify the quotient.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Count and share "broom supplies" into equal groups; name the total or amount in each group.

Science

2026-10-13 | Week 1 | People solve problems

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.6B, 4.6C

4.6B: Investigate and compare a variety of mixtures, including solutions that are composed of liquids in liquids and solids in liquids. In plain English: Investigate and compare mixtures, including liquids mixed with liquids and solids with liquids. 4.6C: Demonstrate that matter is conserved when mixtures such as soil and water or oil and water are formed. In plain English: Show that matter is still present when materials are combined into a mixture. Today: Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

I Do

Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Grade 3: Use a toy car to model a push and pull; contact can change an object's motion. Grade 4: Mix dry beans with large pasta, then separate them. Mix sugar into water and observe that it is still present even when not visible. For conservation, weigh a lidded clear container holding separate soil and water before mixing. Mix without opening or spilling, then weigh the same closed system again. Compare readings; the materials remain even though their arrangement changes.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 4 repeats the closed-container before/after weighing and records both readings. Compare a soil-water mixture with a sugar-water solution and a liquid-liquid mixture such as oil and water. Do not taste the materials. Grade 3 chooses a push or pull to test, predicts the position change, marks the start, tries it and describes the observed result.

You Do

Grade 3: Show a push or pull that changes the car's position. Grade 4: Identify a separable mixture and describe the sugar-water observation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, 3 plates, toy car, tray, dry beans, large pasta, clear cup, sugar, spoon. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Use broom, wagon and character props to test a push or pull and describe the change in motion.

Social studies

2026-10-13 | Week 1 | People solve problems

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Explain how a helpful action serves the community.

Grade 4 | TEKS 4.2B

4.2B: Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas. In plain English: Explain named explorers' accomplishments and their effects on Texas settlement. Today: Connect a named explorer to an accomplishment.

I Do

Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Grade 3: Explain how a helpful action serves the community. Model with one district source, naming the visible clue. Grade 4: Connect a named explorer to an accomplishment. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use large photo cards and a floor map; identify one symbol (G3) or one explorer/route (G4). Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Explain how a helpful action serves the community. Grade 4: Connect a named explorer to an accomplishment. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Name how each helper contributes and connect the story to responsible classroom citizenship.

Reading and writing

2026-10-14 | Week 1 | People solve problems

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Room on the Broom. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Room on the Broom. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Room on the Broom: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Room on the Broom. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Room on the Broom | Notice the problem, the helper's action, and what changes next.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Room on the Broom: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a helper collage or build a paper broom with labeled passengers. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Room on the Broom by Julia Donaldson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-14 | Week 1 | People solve problems

Grade 3 | TEKS 3.4D, 3.4E

3.4D: Determine the total number of objects when equally-sized groups of objects are combined or arranged in arrays up to 10 by 10. In plain English: Find the total in equal groups or arrays up to 10 by 10. 3.4E: Represent multiplication facts by using a variety of approaches such as repeated addition, equal-sized groups, arrays, area models, equal jumps on a number line, and skip counting. In plain English: Show multiplication using groups, arrays, repeated addition, jumps or skip counting. Today: Build another equal-group model and state or select the matching fact.

Grade 4 | TEKS 4.4E, 4.4F

4.4E: Represent the quotient of up to a four-digit whole number divided by a one-digit whole number using arrays, area models, or equations. In plain English: Model division of up to a four-digit number by a one-digit number. 4.4F: Use strategies and algorithms, including the standard algorithm, to divide up to a four-digit dividend by a one-digit divisor. In plain English: Use division strategies and the standard algorithm with up to four-digit dividends and one-digit divisors. Today: Build a fresh equal-sharing example and identify the quotient.

I Do

Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Grade 3: Make 2 groups of 3 counters; connect equal groups to 2 x 3 = 6. Grade 4: Share 12 counters among 3 cups; connect 4 in each cup to 12 / 3 = 4.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect 12 / 3 to the written division algorithm: divide 12 ones into 3 groups, write 4, multiply 4 x 3, subtract 12, and show remainder 0. Extend with place-value blocks to 132 / 3 = 44 when ready; preserve the same place-value steps.

You Do

Grade 3: Build another equal-group model and state or select the matching fact. Grade 4: Build a fresh equal-sharing example and identify the quotient.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Science

2026-10-14 | Week 1 | People solve problems

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.6B, 4.6C

4.6B: Investigate and compare a variety of mixtures, including solutions that are composed of liquids in liquids and solids in liquids. In plain English: Investigate and compare mixtures, including liquids mixed with liquids and solids with liquids. 4.6C: Demonstrate that matter is conserved when mixtures such as soil and water or oil and water are formed. In plain English: Show that matter is still present when materials are combined into a mixture. Today: Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

I Do

Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Grade 3: Use a toy car to model a push and pull; contact can change an object's motion. Grade 4: Mix dry beans with large pasta, then separate them. Mix sugar into water and observe that it is still present even when not visible. For conservation, weigh a lidded clear container holding separate soil and water before mixing. Mix without opening or spilling, then weigh the same closed system again. Compare readings; the materials remain even though their arrangement changes.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 4 repeats the closed-container before/after weighing and records both readings. Compare a soil-water mixture with a sugar-water solution and a liquid-liquid mixture such as oil and water. Do not taste the materials. Grade 3 chooses a push or pull to test, predicts the position change, marks the start, tries it and describes the observed result.

You Do

Grade 3: Show a push or pull that changes the car's position. Grade 4: Identify a separable mixture and describe the sugar-water observation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, 3 plates, toy car, tray, dry beans, large pasta, clear cup, sugar, spoon. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Use broom, wagon and character props to test a push or pull and describe the change in motion.

Social studies

2026-10-14 | Week 1 | People solve problems

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Use a source detail to show responsible citizenship.

Grade 4 | TEKS 4.2B

4.2B: Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas. In plain English: Explain named explorers' accomplishments and their effects on Texas settlement. Today: Find a route or result in a district map/source.

I Do

Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Grade 3: Use a source detail to show responsible citizenship. Model with one district source, naming the visible clue. Grade 4: Find a route or result in a district map/source. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 sorts "good citizen / not helpful." G4 sorts simple motivation cards: money, competition, expansion. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to show responsible citizenship. Grade 4: Find a route or result in a district map/source. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Name how each helper contributes and connect the story to responsible classroom citizenship.

Reading and writing

2026-10-15 | Week 1 | People solve problems

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Room on the Broom. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Room on the Broom. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Room on the Broom: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Room on the Broom. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Room on the Broom | Notice the problem, the helper's action, and what changes next.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Room on the Broom: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a helper collage or build a paper broom with labeled passengers. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Room on the Broom by Julia Donaldson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-15 | Week 1 | People solve problems

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.4E, 4.4F

4.4E: Represent the quotient of up to a four-digit whole number divided by a one-digit whole number using arrays, area models, or equations. In plain English: Model division of up to a four-digit number by a one-digit number. 4.4F: Use strategies and algorithms, including the standard algorithm, to divide up to a four-digit dividend by a one-digit divisor. In plain English: Use division strategies and the standard algorithm with up to four-digit dividends and one-digit divisors. Today: Build a fresh equal-sharing example and identify the quotient.

I Do

Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Use Room on the Broom as today's context. Count and share "broom supplies" into equal groups; name the total or amount in each group. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Share 12 counters among 3 cups; connect 4 in each cup to 12 / 3 = 4.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4. Grade 4: connect 12 / 3 to the written division algorithm: divide 12 ones into 3 groups, write 4, multiply 4 x 3, subtract 12, and show remainder 0. Extend with place-value blocks to 132 / 3 = 44 when ready; preserve the same place-value steps.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Build a fresh equal-sharing example and identify the quotient.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Count and share "broom supplies" into equal groups; name the total or amount in each group.

Science

2026-10-15 | Week 1 | People solve problems

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.6B, 4.6C

4.6B: Investigate and compare a variety of mixtures, including solutions that are composed of liquids in liquids and solids in liquids. In plain English: Investigate and compare mixtures, including liquids mixed with liquids and solids with liquids. 4.6C: Demonstrate that matter is conserved when mixtures such as soil and water or oil and water are formed. In plain English: Show that matter is still present when materials are combined into a mixture. Today: Compare a mixture and a solution; use before/after mass readings of the same closed container to show that matter is conserved.

I Do

Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Use broom, wagon and character props to test a push or pull and describe the change in motion. Use Room on the Broom as today's context. Social studies

2026-10-16 | Week 1 | People solve problems

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Show one example of responsibility with evidence.

Grade 4 | TEKS 4.2A

4.2A: Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion. In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion. Today: Match an explorer, motivation and result.

I Do

Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Use Room on the Broom as today's context. Name how each helper contributes and connect the story to responsible classroom citizenship. Grade 3: Show one example of responsibility with evidence. Model with one district source, naming the visible clue. Grade 4: Match an explorer, motivation and result. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Room on the Broom and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 makes a symbol-and-meaning card. G4 places an explorer icon on a map and gives one oral/picture-supported reason. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Show one example of responsibility with evidence. Grade 4: Match an explorer, motivation and result. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Room on the Broom that represents this connection.

Book connection for this subject

Room on the Broom | Name how each helper contributes and connect the story to responsible classroom citizenship.

Reading and writing

2026-10-19 | Week 2 | Show what changed

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Big Pumpkin. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Big Pumpkin. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Big Pumpkin: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Big Pumpkin. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Big Pumpkin | Sequence the stuck-pumpkin problem, the group's attempts, and the shared solution.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Big Pumpkin: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a lift-the-pumpkin paper chain showing each helper in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Big Pumpkin by Erica Silverman. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-19 | Week 2 | Show what changed

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation.

Science

2026-10-19 | Week 2 | Show what changed

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe energy moving from one object to another.

I Do

Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Grade 3: Use a toy car to model a push and pull; contact can change an object's motion. Grade 4: Roll one toy car into a stationary car. Predict, test and describe the movement of the second car as evidence of energy transfer.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3 chooses a push or pull to test, predicts the position change, marks the start, tries it and describes the observed result.

You Do

Grade 3: Show a push or pull that changes the car's position. Grade 4: Repeat with a fresh trial and identify where energy transferred.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two toy cars, tape, flat board, counters, plates, cups, pencil or craft-stick set. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Use a toy pumpkin or car to show how a push or pull changes position and motion.

Social studies

2026-10-19 | Week 2 | Show what changed

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Name a responsible action.

Grade 4 | TEKS 4.2A

4.2A: Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion. In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion. Today: Show why Europeans explored Texas.

I Do

Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Grade 3: Name a responsible action. Model with one district source, naming the visible clue. Grade 4: Show why Europeans explored Texas. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 symbol photo; G4 explorer/route map. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Name a responsible action. Grade 4: Show why Europeans explored Texas. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Match each character to a team role and explain how cooperation helps the group.

Reading and writing

2026-10-20 | Week 2 | Show what changed

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Big Pumpkin. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Big Pumpkin. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. 2026-10-21 | Week 2 | Show what changed

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation.

Science

2026-10-21 | Week 2 | Show what changed

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe energy moving from one object to another.

I Do

Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Grade 3: Use a toy car to model a push and pull; contact can change an object's motion. Grade 4: Roll one toy car into a stationary car. Predict, test and describe the movement of the second car as evidence of energy transfer.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3 chooses a push or pull to test, predicts the position change, marks the start, tries it and describes the observed result.

You Do

Grade 3: Show a push or pull that changes the car's position. Grade 4: Repeat with a fresh trial and identify where energy transferred.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two toy cars, tape, flat board, counters, plates, cups, pencil or craft-stick set. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Use a toy pumpkin or car to show how a push or pull changes position and motion.

Social studies

2026-10-21 | Week 2 | Show what changed

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Use a source detail to show responsible citizenship.

Grade 4 | TEKS 4.2B

4.2B: Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas. In plain English: Explain named explorers' accomplishments and their effects on Texas settlement. Today: Find a route or result in a district map/source.

I Do

Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Grade 3: Use a source detail to show responsible citizenship. Model with one district source, naming the visible clue. Grade 4: Find a route or result in a district map/source. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 symbol to meaning; G4 explorer to motivation/route. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to show responsible citizenship. Grade 4: Find a route or result in a district map/source. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Match each character to a team role and explain how cooperation helps the group.

Reading and writing

2026-10-22 | Week 2 | Show what changed

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Big Pumpkin. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Big Pumpkin. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Big Pumpkin: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Big Pumpkin. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Big Pumpkin | Sequence the stuck-pumpkin problem, the group's attempts, and the shared solution.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Big Pumpkin: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a lift-the-pumpkin paper chain showing each helper in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Big Pumpkin by Erica Silverman. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-22 | Week 2 | Show what changed

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Big Pumpkin that represents this connection.

Big Pumpkin | Use a toy pumpkin or car to show how a push or pull changes position and motion.

Social studies

2026-10-22 | Week 2 | Show what changed

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Choose a helpful action and explain its effect.

Grade 4 | TEKS 4.2B

4.2B: Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas. In plain English: Explain named explorers' accomplishments and their effects on Texas settlement. Today: Explain one effect of an explorer's actions.

I Do

Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Grade 3: Choose a helpful action and explain its effect. Model with one district source, naming the visible clue. Grade 4: Explain one effect of an explorer's actions. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Sentence frame: "This shows ___." / "___ explored because ___." Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Choose a helpful action and explain its effect. Grade 4: Explain one effect of an explorer's actions. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Big Pumpkin that represents this connection.

Big Pumpkin | Match each character to a team role and explain how cooperation helps the group.

Reading and writing

2026-10-23 | Week 2 | Show what changed

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Big Pumpkin. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Big Pumpkin. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Big Pumpkin: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Big Pumpkin. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Big Pumpkin | Sequence the stuck-pumpkin problem, the group's attempts, and the shared solution.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Big Pumpkin: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a lift-the-pumpkin paper chain showing each helper in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Big Pumpkin by Erica Silverman. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-23 | Week 2 | Show what changed

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Use Big Pumpkin as today's context. Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation.

Science

2026-10-23 | Week 2 | Show what changed

Grade 3 | TEKS 3.7A, 3.7B

3.7A: Demonstrate and describe forces acting on an object in contact or at a distance, including magnetism, gravity, and pushes and pulls. In plain English: Show and explain pushes, pulls, gravity and magnetism, including forces that act without touching. 3.7B: Plan and conduct a descriptive investigation to demonstrate and explain how position and motion can be changed by pushing and pulling objects such as swings, balls, and wagons. In plain English: Plan and carry out a test showing how pushes and pulls change position or motion. Today: Show how a push or pull changes motion.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe energy moving from one object to another.

I Do

Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Use Big Pumpkin as today's context. Use a toy pumpkin or car to show how a push or pull changes position and motion. Roll a car into a second car on a flat taped track. Repeat three times.Grade 4: Roll one toy car into a stationary car. Predict, test and describe the movement of the second car as evidence of energy transfer.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Complete three trials. Record prediction and observed result. Use the Friday science tasks to assess during the investigation. Grade 3 chooses a push or pull to test, predicts the position change, marks the start, tries it and describes the observed result.

You Do

Grade 3: Show a push or pull that changes the car's position. Grade 4: Repeat with a fresh trial and identify where energy transferred.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two toy cars, tape, flat board, counters, plates, cups, pencil or craft-stick set. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Use a toy pumpkin or car to show how a push or pull changes position and motion.

Friday investigation

Use materials connected to Big Pumpkin: Use a toy pumpkin or car to show how a push or pull changes position and motion. Record a prediction, three observations and one evidence-based conclusion.

Social studies

2026-10-23 | Week 2 | Show what changed

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Show one example of responsibility with evidence.

Grade 4 | TEKS 4.2A

4.2A: Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion. In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion. Today: Match an explorer, motivation and result.

I Do

Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Use Big Pumpkin as today's context. Match each character to a team role and explain how cooperation helps the group. Grade 3: Show one example of responsibility with evidence. Model with one district source, naming the visible clue. Grade 4: Match an explorer, motivation and result. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Big Pumpkin and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. One source, one question, one product. Keep accuracy and prompting separate. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Show one example of responsibility with evidence. Grade 4: Match an explorer, motivation and result. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Big Pumpkin that represents this connection.

Book connection for this subject

Big Pumpkin | Match each character to a team role and explain how cooperation helps the group.

Reading and writing

2026-10-26 | Week 3 | Characters take action

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Pumpkin Soup. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Pumpkin Soup. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Pumpkin Soup: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Pumpkin Soup. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Pumpkin Soup | Identify the characters' jobs, the conflict about changing roles, and the repaired plan.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Pumpkin Soup: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a paper soup bowl with picture ingredients and a three-part problem/solution strip. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Pumpkin Soup by Helen Cooper. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-26 | Week 3 | Characters take action

Grade 3 | TEKS 3.4H, 3.4J

3.4H: Determine the number of objects in each group when a set of objects is partitioned into equal shares or a set of objects is shared equally. In plain English: Find how many objects are in each group after sharing equally. 3.4J: Determine a quotient using the relationship between multiplication and division. In plain English: Use a related multiplication fact to solve a division problem. Today: Share 6 counters between 2 plates, then show how many are in each group.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Grade 3: Share 8 counters between 2 plates; each plate receives 4. Connect the model to 8 / 2 = 4. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 3: after sharing 8 into 2 equal groups, use 2 x 4 = 8 to explain why 8 / 2 = 4.

You Do

Grade 3: Share 6 counters between 2 plates, then show how many are in each group. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Use pretend soup ingredients to make equal groups or a simple input-output table for servings.

Science

2026-10-26 | Week 3 | Characters take action

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two puppets or figures, counters, square tiles, flashlight, shaker, battery circuit kit. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Connect stirring, scooping and warming to the week's energy target and record what the action changes.

Social studies

2026-10-26 | Week 3 | Characters take action

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Name a responsible action.

Grade 4 | TEKS 4.2A

4.2A: Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion. In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion. Today: Show why Europeans explored Texas.

I Do

Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Grade 3: Name a responsible action. Model with one district source, naming the visible clue. Grade 4: Show why Europeans explored Texas. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use one large visual and one guiding question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Name a responsible action. Grade 4: Show why Europeans explored Texas. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Real books: Pumpkin Soup. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Pumpkin Soup | Identify the characters' jobs, the conflict about changing roles, and the repaired plan.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Pumpkin Soup: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a paper soup bowl with picture ingredients and a three-part problem/solution strip. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Pumpkin Soup by Helen Cooper. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-28 | Week 3 | Characters take action

Grade 3 | TEKS 3.5E

3.5E: Represent real-world relationships using number pairs in a table and verbal descriptions. In plain English: Use pairs of numbers in a table to describe a real-world relationship. Today: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

Grade 4 | TEKS 4.5A

4.5A: Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity. In plain English: Represent multi-step problems using the four operations, diagrams and equations with a letter for the unknown. Today: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

I Do

Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Grade 3: Put 2 supplies in each bag. Build a two-column table: 1 bag / 2 supplies, 2 bags / 4 supplies, 3 bags / 6 supplies. Explain the relationship: two supplies for each bag. Grade 4: Act out 2 bags with 3 pencils each, then give away 1 pencil. Build a strip diagram; connect it to (2 x 3) - 1 = n. Find 5 pencils left. Begin with one step if needed.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship. Grade 4: Model 3 bags of 2 pencils, then give away 2. Choose operations and show 4 left; use n for the unknown when ready.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Use pretend soup ingredients to make equal groups or a simple input-output table for servings.

Science

2026-10-28 | Week 3 | Characters take action

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two puppets or figures, counters, square tiles, flashlight, shaker, battery circuit kit. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Connect stirring, scooping and warming to the week's energy target and record what the action changes.

Social studies

2026-10-28 | Week 3 | Characters take action

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Use a source detail to show responsible citizenship.

Grade 4 | TEKS 4.2B

4.2B: Identify the accomplishments and explain the impact of significant explorers, including Cabeza de Vaca; Francisco Coronado; and René Robert Cavelier, Sieur de la Salle, on the settlement of Texas. In plain English: Explain named explorers' accomplishments and their effects on Texas settlement. Today: Find a route or result in a district map/source.

I Do

Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Grade 3: Use a source detail to show responsible citizenship. Model with one district source, naming the visible clue. Grade 4: Find a route or result in a district map/source. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 action to community result; G4 motivation to exploration action to outcome. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to show responsible citizenship. Grade 4: Find a route or result in a district map/source. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Practice taking turns, sharing jobs and repairing a disagreement in a classroom community.

Reading and writing

2026-10-29 | Week 3 | Characters take action

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Pumpkin Soup. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Pumpkin Soup. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Pumpkin Soup: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Pumpkin Soup. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Pumpkin Soup | Identify the characters' jobs, the conflict about changing roles, and the repaired plan.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Pumpkin Soup: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a paper soup bowl with picture ingredients and a three-part problem/solution strip. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

Pumpkin Soup by Helen Cooper. Return to the real pages for evidence; see the weekly book guide.

Math

2026-10-29 | Week 3 | Characters take action

Grade 3 | TEKS 3.5E

3.5E: Represent real-world relationships using number pairs in a table and verbal descriptions. In plain English: Use pairs of numbers in a table to describe a real-world relationship. Today: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

Grade 4 | TEKS 4.5C, 4.5D

4.5C: Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w). In plain English: Use models to explain rectangle area and perimeter formulas. 4.5D: Solve problems related to perimeter and area of rectangles where dimensions are whole numbers. In plain English: Solve rectangle area and perimeter problems with whole-number side lengths. Today: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

I Do

Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Use Pumpkin Soup as today's context. Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Grade 3: Put 2 supplies in each bag. Build a two-column table: 1 bag / 2 supplies, 2 bags / 4 supplies, 3 bags / 6 supplies. Explain the relationship: two supplies for each bag. Grade 4: Cover a 2 by 3 rectangle with 6 unit squares. Trace and count the 10 unit edges around the outside.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect the 2-by-3 tile model to A = 2 x 3 and P = 2 + 3 + 2 + 3. Use the model to explain why area multiplies rows and columns and perimeter adds all four edges.

You Do

Grade 3: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship. Grade 4: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Pumpkin Soup that represents this connection.

Pumpkin Soup | Practice taking turns, sharing jobs and repairing a disagreement in a classroom community.

Reading and writing

2026-10-30 | Week 3 | Characters take action

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Pumpkin Soup. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Pumpkin Soup. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Pumpkin Soup: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Pumpkin Soup | Use pretend soup ingredients to make equal groups or a simple input-output table for servings.

Science

2026-10-30 | Week 3 | Characters take action

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Use Pumpkin Soup as today's context. Connect stirring, scooping and warming to the week's energy target and record what the action changes. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Two puppets or figures, counters, square tiles, flashlight, shaker, battery circuit kit. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Connect stirring, scooping and warming to the week's energy target and record what the action changes.

Social studies

2026-10-30 | Week 3 | Characters take action

Grade 3 | TEKS 3.9A

3.9A: Identify characteristics of good citizenship, including truthfulness, justice, equality, respect for oneself and others, responsibility in daily life, and participation in government by educating oneself about the issues, respectfully holding public officials to their word, and voting. In plain English: Recognize responsible citizenship, including honesty, fairness, respect and participation in government. Today: Show one example of responsibility with evidence.

Grade 4 | TEKS 4.2A

4.2A: Summarize motivations for European exploration and settlement of Texas, including economic opportunity, competition, and the desire for expansion. In plain English: Explain why Europeans explored and settled Texas, including opportunity, competition and expansion. Today: Match an explorer, motivation and result.

I Do

Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Use Pumpkin Soup as today's context. Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Grade 3: Show one example of responsibility with evidence. Model with one district source, naming the visible clue. Grade 4: Match an explorer, motivation and result. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Pumpkin Soup and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. One source-based question and one quick product; no long worksheet. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Show one example of responsibility with evidence. Grade 4: Match an explorer, motivation and result. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Pumpkin Soup that represents this connection.

Book connection for this subject

Pumpkin Soup | Practice taking turns, sharing jobs and repairing a disagreement in a classroom community.

Reading and writing

2026-11-04 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Leaf Man. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Leaf Man. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Leaf Man: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Leaf Man. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Leaf Man | Follow Leaf Man's movement across settings; use the leaf collages and page sequence as evidence.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Leaf Man: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a leaf collage character and map the places it visits in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Leaf Man by Lois Ehlert. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-04 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.5E

3.5E: Represent real-world relationships using number pairs in a table and verbal descriptions. In plain English: Use pairs of numbers in a table to describe a real-world relationship. Today: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship.

Grade 4 | TEKS 4.5C, 4.5D

4.5C: Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w). In plain English: Use models to explain rectangle area and perimeter formulas. 4.5D: Solve problems related to perimeter and area of rectangles where dimensions are whole numbers. In plain English: Solve rectangle area and perimeter problems with whole-number side lengths. Today: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

I Do

Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Grade 3: Put 2 supplies in each bag. Build a two-column table: 1 bag / 2 supplies, 2 bags / 4 supplies, 3 bags / 6 supplies. Explain the relationship: two supplies for each bag. Grade 4: Cover a 2 by 3 rectangle with 6 unit squares. Trace and count the 10 unit edges around the outside.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect the 2-by-3 tile model to A = 2 x 3 and P = 2 + 3 + 2 + 3. Use the model to explain why area multiplies rows and columns and perimeter adds all four edges.

You Do

Grade 3: Build 4 bags with 2 supplies each; complete 4 / 8 in the table and explain the relationship. Grade 4: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target.

Science

2026-11-04 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe how sound transfers energy.

I Do

Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Hold a hand near a sounding speaker or observe grains on a membrane near a sound source; compare sound on/off. Connect the observed vibration to energy transfer. Keep sound comfortable.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show the observed change when sound begins and explain that sound carries energy.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Sturdy tissue box, large rubber bands, shaker, flashlight, square tiles, paper circles, event pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion.

Social studies

2026-11-04 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Tell what both sources agree on.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Explain one person's contribution to the Revolution.

I Do

Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Grade 3: Tell what both sources agree on. Model with one district source, naming the visible clue. Grade 4: Explain one person's contribution to the Revolution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use artifact/photo/map vs textbook-style picture. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Tell what both sources agree on. Grade 4: Explain one person's contribution to the Revolution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Book connection for this subject

Leaf Man | Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion.

Social studies

2026-11-05 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.14F

3.14F: Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic. In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing. Today: Use a source detail to support a claim about the past.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Connect an event to its effect.

I Do

Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Grade 3: Use a source detail to support a claim about the past. Model with one district source, naming the visible clue. Grade 4: Connect an event to its effect. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 uses source evidence; G4 places one event on a 3-part timeline. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to support a claim about the past. Grade 4: Connect an event to its effect. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Reading and writing

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Leaf Man. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Leaf Man. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Leaf Man: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Leaf Man. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Leaf Man | Follow Leaf Man's movement across settings; use the leaf collages and page sequence as evidence.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Leaf Man: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Create a leaf collage character and map the places it visits in order. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Leaf Man by Lois Ehlert. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5C, 4.5D

4.5C: Use models to determine the formulas for the perimeter of a rectangle (l + w + l + w or 2l + 2w), including the special form for perimeter of a square (4s) and the area of a rectangle (l x w). In plain English: Use models to explain rectangle area and perimeter formulas. 4.5D: Solve problems related to perimeter and area of rectangles where dimensions are whole numbers. In plain English: Solve rectangle area and perimeter problems with whole-number side lengths. Today: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

I Do

Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Use Leaf Man as today's context. Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Cover a 2 by 3 rectangle with 6 unit squares. Trace and count the 10 unit edges around the outside.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: connect the 2-by-3 tile model to A = 2 x 3 and P = 2 + 3 + 2 + 3. Use the model to explain why area multiplies rows and columns and perimeter adds all four edges.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Build a 2 by 4 rectangle; show area 8 square units and perimeter 12 units.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target.

Science

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Observe how sound transfers energy.

I Do

Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Use Leaf Man as today's context. Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Stretch large rubber bands over a sturdy box. Pluck gently and compare vibrations and sound.Grade 4: Hold a hand near a sounding speaker or observe grains on a membrane near a sound source; compare sound on/off. Connect the observed vibration to energy transfer. Keep sound comfortable.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Complete three trials. Record prediction and observed result. Use the Friday science tasks to assess during the investigation.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show the observed change when sound begins and explain that sound carries energy.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Sturdy tissue box, large rubber bands, shaker, flashlight, square tiles, paper circles, event pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion.

Friday investigation

Use materials connected to Leaf Man: Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Record a prediction, three observations and one evidence-based conclusion.

Social studies

2026-11-06 | Week 4 | Listen and find evidence

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare two sources and support one claim.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Use a source to explain an event or contribution.

I Do

Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Use Leaf Man as today's context. Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Grade 3: Compare two sources and support one claim. Model with one district source, naming the visible clue. Grade 4: Use a source to explain an event or contribution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Leaf Man and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Picture + dictated/AAC sentence. Keep the product brief and meaningful. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare two sources and support one claim. Grade 4: Use a source to explain an event or contribution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Leaf Man that represents this connection.

Book connection for this subject

Leaf Man | Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place.

Reading and writing

2026-11-09 | Week 5 | Small actions help

Grade 3 | TEKS 3.9D(i)

3.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.9D(i), 4.7C

4.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from We're Going on a Leaf Hunt. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from We're Going on a Leaf Hunt. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from We're Going on a Leaf Hunt: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: We're Going on a Leaf Hunt. Bring the props and response mats in the weekly book guide.

Book connection for this subject

We're Going on a Leaf Hunt | Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about We're Going on a Leaf Hunt: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a large-print route accordion with one leaf picture and location on each panel. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

We're Going on a Leaf Hunt by Steve Metzger. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-09 | Week 5 | Small actions help

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Sort and count the leaves collected on the story route; use the groups to model this week's fraction target.

Science

2026-11-09 | Week 5 | Small actions help

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way.

Social studies

2026-11-09 | Week 5 | Small actions help

Grade 3 | TEKS 3.14A

3.14A: Gather information, including historical and current events and geographic data, about the community using a variety of resources. In plain English: Gather community information from different sources, including history, current events and geography. Today: Notice who made a historical source.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Identify a cause of the Texas Revolution.

I Do

Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Grade 3: Notice who made a historical source. Model with one district source, naming the visible clue. Grade 4: Identify a cause of the Texas Revolution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Teacher models looking for one visible clue at a time. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Notice who made a historical source. Grade 4: Identify a cause of the Texas Revolution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Use a simple route map to connect the friends' journey with safe ways people explore and care for local places.

Reading and writing

2026-11-10 | Week 5 | Small actions help

Grade 3 | TEKS 3.9D(i)

3.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.9D(i), 4.7C

4.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from We're Going on a Leaf Hunt. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from We're Going on a Leaf Hunt. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from We're Going on a Leaf Hunt: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: We're Going on a Leaf Hunt. Bring the props and response mats in the weekly book guide.

Book connection for this subject

We're Going on a Leaf Hunt | Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about We're Going on a Leaf Hunt: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a large-print route accordion with one leaf picture and location on each panel. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

We're Going on a Leaf Hunt by Steve Metzger. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-10 | Week 5 | Small actions help

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Sort and count the leaves collected on the story route; use the groups to model this week's fraction target.

Science

2026-11-10 | Week 5 | Small actions help

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way.

Social studies

2026-11-10 | Week 5 | Small actions help

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare an original photo with a later account of the same event.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Place two major Revolution events in order.

I Do

Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Grade 3: Compare an original photo with a later account of the same event. Model with one district source, naming the visible clue. Grade 4: Place two major Revolution events in order. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 chooses which source answers a question. G4 matches person/event card to action. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare an original photo with a later account of the same event. Grade 4: Place two major Revolution events in order. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Use a simple route map to connect the friends' journey with safe ways people explore and care for local places.

Reading and writing

2026-11-11 | Week 5 | Small actions help

Grade 3 | TEKS 3.9D(i)

3.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.9D(i), 4.7C

4.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from We're Going on a Leaf Hunt. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from We're Going on a Leaf Hunt. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from We're Going on a Leaf Hunt: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: We're Going on a Leaf Hunt. Bring the props and response mats in the weekly book guide.

Book connection for this subject

We're Going on a Leaf Hunt | Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about We're Going on a Leaf Hunt: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a large-print route accordion with one leaf picture and location on each panel. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

We're Going on a Leaf Hunt by Steve Metzger. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-11 | Week 5 | Small actions help

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Sort and count the leaves collected on the story route; use the groups to model this week's fraction target.

Science

2026-11-11 | Week 5 | Small actions help

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.8A, 4.8B, 4.8C

4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. 4.8B: Identify conductors and insulators of thermal and electrical energy. In plain English: Identify materials that let heat or electricity pass through and materials that resist it. 4.8C: Demonstrate and describe how electrical energy travels in a closed path that can produce light and thermal energy. In plain English: Show that electricity travels around a closed path and can produce light and heat. Today: Observe energy transfer, test materials and build a closed circuit.

I Do

Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Use moving cars, sound, thermal conductors and a low-voltage battery circuit to observe transfer. Close the path to light a bulb; open it to stop.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show a transfer or closed circuit and identify what changed.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Use a simple route map to connect the friends' journey with safe ways people explore and care for local places.

Reading and writing

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.9D(i)

3.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.9D(i), 4.7C

4.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from We're Going on a Leaf Hunt. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from We're Going on a Leaf Hunt. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from We're Going on a Leaf Hunt: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: We're Going on a Leaf Hunt. Bring the props and response mats in the weekly book guide.

Book connection for this subject

We're Going on a Leaf Hunt | Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about We're Going on a Leaf Hunt: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a large-print route accordion with one leaf picture and location on each panel. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

We're Going on a Leaf Hunt by Steve Metzger. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.3A, 3.3C

3.3A: Represent fractions greater than zero and less than or equal to one with denominators of 2, 3, 4, 6, and 8 using concrete objects and pictorial models, including strip diagrams and number lines. In plain English: Model fractions from greater than zero through one, using halves, thirds, fourths, sixths and eighths. 3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. Today: Select 3 of the 4 equal parts and show three fourths.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Grade 3: Fold an equal-size paper whole into 4 equal parts; select one part and name one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Select 3 of the 4 equal parts and show three fourths. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way.

Social studies

2026-11-12 | Week 5 | Small actions help

Grade 3 | TEKS 3.14F

3.14F: Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic. In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing. Today: Use a source detail to support a claim about the past.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Connect an event to its effect.

I Do

Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Grade 3: Use a source detail to support a claim about the past. Model with one district source, naming the visible clue. Grade 4: Connect an event to its effect. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Sentence frame or AAC: "Because ___, ___ happened." Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to support a claim about the past. Grade 4: Connect an event to its effect. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Use a simple route map to connect the friends' journey with safe ways people explore and care for local places.

Reading and writing

2026-11-13 | Week 5 | Small actions help

Grade 3 | TEKS 3.9D(i)

3.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.9D(i), 4.7C

4.9D(i): Recognize characteristics and structures of informational text, including: the central idea with supporting evidence. In plain English: Identify an informational text's central idea and the details that support it. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from We're Going on a Leaf Hunt. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from We're Going on a Leaf Hunt. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from We're Going on a Leaf Hunt: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: We're Going on a Leaf Hunt. Bring the props and response mats in the weekly book guide.

Book connection for this subject

We're Going on a Leaf Hunt | Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about We're Going on a Leaf Hunt: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a large-print route accordion with one leaf picture and location on each panel. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

We're Going on a Leaf Hunt by Steve Metzger. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-13 | Week 5 | Small actions help

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.5B

4.5B: Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. In plain English: Use a rule, an input-output table and expressions to represent a number pattern. Today: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

I Do

Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Use We're Going on a Leaf Hunt as today's context. Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Build 2, 4, 6 counters. Say the rule is add 2. Use an input-output mat to show input 3 gives output 5 under add 2.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Continue 2, 4, 6; then find output 7 for input 5 under add 2.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Sort and count the leaves collected on the story route; use the groups to model this week's fraction target.

Science

2026-11-13 | Week 5 | Small actions help

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify light, sound, thermal and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Use We're Going on a Leaf Hunt as today's context. Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Fraction pieces, counters, puppets, flashlight, sealed lukewarm bottle, magnet, paper clips, felt, board. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from We're Going on a Leaf Hunt that represents this connection.

Book connection for this subject

We're Going on a Leaf Hunt | Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way.

Social studies

2026-11-13 | Week 5 | Small actions help

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare two sources and support one claim.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Use a source to explain an event or contribution.

I Do

Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Use We're Going on a Leaf Hunt as today's context. Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Grade 3: Compare two sources and support one claim. Model with one district source, naming the visible clue. Grade 4: Use a source to explain an event or contribution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to We're Going on a Leaf Hunt and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use pictures, maps, or artifacts-not a dense reading passage. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare two sources and support one claim. Grade 4: Use a source to explain an event or contribution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Book connection for this subject

We're Going on a Leaf Hunt | Use a simple route map to connect the friends' journey with safe ways people explore and care for local places.

Reading and writing

2026-11-16 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Fletcher and the Falling Leaves. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Fletcher and the Falling Leaves. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Fletcher and the Falling Leaves: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Fletcher and the Falling Leaves by Julia Rawlinson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-16 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Fletcher and the Falling Leaves | Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows.

Social studies

2026-11-16 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14A

3.14A: Gather information, including historical and current events and geographic data, about the community using a variety of resources. In plain English: Gather community information from different sources, including history, current events and geography. Today: Notice who made a historical source.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Identify a cause of the Texas Revolution.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Notice who made a historical source. Model with one district source, naming the visible clue. Grade 4: Identify a cause of the Texas Revolution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use a single high-quality image and one guiding question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Notice who made a historical source. Grade 4: Identify a cause of the Texas Revolution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Fletcher and the Falling Leaves by Julia Rawlinson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-17 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target.

Science

2026-11-17 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8A

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. Today: Identify everyday forms of energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Grade 3: Show a flashlight, shaker, safely lukewarm sealed bottle and moving car. Name light, sound, thermal and mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same.

You Do

Grade 3: Match an object to its energy form; demonstrate one observable change. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, low ramp, stable blocks, felt, tray, tape, fraction strips, historical pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows.

Social studies

2026-11-17 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare an original photo with a later account of the same event.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Place two major Revolution events in order.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Compare an original photo with a later account of the same event. Model with one district source, naming the visible clue. Grade 4: Place two major Revolution events in order. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Student circles/points to the part of the source that answers the question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare an original photo with a later account of the same event. Grade 4: Place two major Revolution events in order. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community.

Reading and writing

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Fletcher and the Falling Leaves. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Fletcher and the Falling Leaves. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Fletcher and the Falling Leaves: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Math

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Science

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, low ramp, stable blocks, felt, tray, tape, fraction strips, historical pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Social studies

2026-11-18 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Tell what both sources agree on.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Explain one person's contribution to the Revolution.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Tell what both sources agree on. Model with one district source, naming the visible clue. Grade 4: Explain one person's contribution to the Revolution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use floor timeline; physically move the card. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Tell what both sources agree on. Grade 4: Explain one person's contribution to the Revolution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community.

Reading and writing

2026-11-19 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Fletcher and the Falling Leaves. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Fletcher and the Falling Leaves. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Fletcher and the Falling Leaves: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Fletcher and the Falling Leaves by Julia Rawlinson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-19 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target.

Science

2026-11-19 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, low ramp, stable blocks, felt, tray, tape, fraction strips, historical pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows.

Social studies

2026-11-19 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14F

3.14F: Develop and communicate a claim and supporting evidence visually, orally, or in writing related to a social studies topic. In plain English: Make a social studies claim and support it with evidence, using pictures, speech or writing. Today: Use a source detail to support a claim about the past.

Grade 4 | TEKS 4.3A

4.3A: Analyze the causes, major events, and effects of the Texas Revolution, including the Battle of the Alamo, the Texas Declaration of Independence, the Runaway Scrape, and the Battle of San Jacinto. In plain English: Explain causes, major events and effects of the Texas Revolution. Today: Connect an event to its effect.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Use a source detail to support a claim about the past. Model with one district source, naming the visible clue. Grade 4: Connect an event to its effect. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use arrows and a short oral/AAC frame. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Use a source detail to support a claim about the past. Grade 4: Connect an event to its effect. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community.

Reading and writing

2026-11-20 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Fletcher and the Falling Leaves. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Fletcher and the Falling Leaves. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Fletcher and the Falling Leaves: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Fletcher and the Falling Leaves. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Fletcher and the Falling Leaves | Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Fletcher and the Falling Leaves: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a tree collage with removable leaves and a three-part change-over-time sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Fletcher and the Falling Leaves by Julia Rawlinson. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-20 | Week 6 | Observe and explain

Grade 3 | TEKS 3.3C, 3.3D

3.3C: Explain that the unit fraction 1/b represents the quantity formed by one part of a whole that has been partitioned into b equal parts where b is a non-zero whole number. In plain English: Explain that a unit fraction is one equal part of a whole. 3.3D: Compose and decompose a fraction a/b with a numerator greater than zero and less than or equal to b as a sum of parts 1/b. In plain English: Build and break apart a fraction as a sum of unit fractions. Today: Make one whole from fourths; separate it into two smaller fractional amounts.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Use Fletcher and the Falling Leaves as today's context. Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Grade 3: Join three one-fourth pieces to make three fourths. Separate into two fourths and one fourth. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Make one whole from fourths; separate it into two smaller fractional amounts. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target.

Science

2026-11-20 | Week 6 | Observe and explain

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Use Fletcher and the Falling Leaves as today's context. Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Compare ramp height for grade 3; compare surface friction for grade 4. Change one factor at a time.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Complete three trials. Record prediction and observed result. Use the Friday science tasks to assess during the investigation. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, low ramp, stable blocks, felt, tray, tape, fraction strips, historical pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows.

Friday investigation

Use materials connected to Fletcher and the Falling Leaves: Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Record a prediction, three observations and one evidence-based conclusion.

Social studies

2026-11-20 | Week 6 | Observe and explain

Grade 3 | TEKS 3.14B

3.14B: Differentiate and compare the information about a specific issue or event provided in primary and secondary sources. In plain English: Compare what firsthand sources and later accounts say about the same issue or event. Today: Compare two sources and support one claim.

Grade 4 | TEKS 4.3B

4.3B: Summarize the significant contributions of individuals such as William B. Travis, James Bowie, David Crockett, Juan N. Seguín, Plácido Benavides, José Francisco Ruiz, Antonio López de Santa Anna, Susanna Dickinson, and Enrique Esparza. In plain English: Explain how important individuals contributed to the Texas Revolution. Today: Use a source to explain an event or contribution.

I Do

Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Use Fletcher and the Falling Leaves as today's context. Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Grade 3: Compare two sources and support one claim. Model with one district source, naming the visible clue. Grade 4: Use a source to explain an event or contribution. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Fletcher and the Falling Leaves and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. One source + one timeline placement + one cause/effect response. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare two sources and support one claim. Grade 4: Use a source to explain an event or contribution. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Fletcher and the Falling Leaves that represents this connection.

Book connection for this subject

Fletcher and the Falling Leaves | Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community.

Reading and writing

2026-11-30 | Week 7 | Create together

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Seasons of Arnold's Apple Tree. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Seasons of Arnold's Apple Tree. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Seasons of Arnold's Apple Tree: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Seasons of Arnold's Apple Tree. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Seasons of Arnold's Apple Tree: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a four-season tree wheel with large picture labels and a clear seasonal sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Seasons of Arnold's Apple Tree by Gail Gibbons. Return to the real pages for evidence; see the weekly book guide.

Math

2026-11-30 | Week 7 | Create together

Grade 3 | TEKS 3.3F, 3.3G

3.3F: Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines. In plain English: Use models or number lines to show equivalent fractions. 3.3G: Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model. In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole. Today: Match one third with two sixths and show that the amounts are equal.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Grade 3: Line up equal-length whole strips. Compare one half with two fourths; their endpoints match. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Match one third with two sixths and show that the amounts are equal. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

Science

2026-11-30 | Week 7 | Create together

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Paper, glue sticks, collage scraps, fraction strips, toy car, ramp, magnet, clip, craft stick. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year.

Social studies

2026-11-30 | Week 7 | Create together

Grade 3 | TEKS 3.1A

3.1A: Describe how individuals, events, and ideas have changed communities, past and present. In plain English: Explain how people, events and ideas have changed communities. Today: Identify a community change caused by people.

Grade 4 | TEKS 4.3C

4.3C: Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones. In plain English: Identify leaders who helped establish Texas as a republic and a state. Today: Identify a leader of the Republic of Texas.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Grade 3: Identify a community change caused by people. Model with one district source, naming the visible clue. Grade 4: Identify a leader of the Republic of Texas. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 uses community photo; G4 uses leader/event card. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Identify a community change caused by people. Grade 4: Identify a leader of the Republic of Texas. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare how people use or care for a tree in different seasons; connect the examples to local community spaces.

Reading and writing

2026-12-01 | Week 7 | Create together

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Seasons of Arnold's Apple Tree. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Seasons of Arnold's Apple Tree. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Seasons of Arnold's Apple Tree: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Seasons of Arnold's Apple Tree. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Seasons of Arnold's Apple Tree: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a four-season tree wheel with large picture labels and a clear seasonal sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Seasons of Arnold's Apple Tree by Gail Gibbons. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-01 | Week 7 | Create together

Grade 3 | TEKS 3.3F, 3.3G

3.3F: Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines. In plain English: Use models or number lines to show equivalent fractions. 3.3G: Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model. In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole. Today: Match one third with two sixths and show that the amounts are equal.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Grade 3: Line up equal-length whole strips. Compare one half with two fourths; their endpoints match. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Match one third with two sixths and show that the amounts are equal. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts.

Science

2026-12-01 | Week 7 | Create together

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Paper, glue sticks, collage scraps, fraction strips, toy car, ramp, magnet, clip, craft stick. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year.

Social studies

2026-12-01 | Week 7 | Create together

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Explain an action that improves a community.

Grade 4 | TEKS 4.3D

4.3D: Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers. In plain English: Describe the Republic of Texas's successes, problems and organizations. Today: Explain a challenge faced by the Republic.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Grade 3: Explain an action that improves a community. Model with one district source, naming the visible clue. Grade 4: Explain a challenge faced by the Republic. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use arrow cards and simple cause/effect language. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Explain an action that improves a community. Grade 4: Explain a challenge faced by the Republic. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare how people use or care for a tree in different seasons; connect the examples to local community spaces.

Reading and writing

2026-12-02 | Week 7 | Create together

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Seasons of Arnold's Apple Tree. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Seasons of Arnold's Apple Tree. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Seasons of Arnold's Apple Tree: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Seasons of Arnold's Apple Tree. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Seasons of Arnold's Apple Tree: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a four-season tree wheel with large picture labels and a clear seasonal sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Social studies

2026-12-02 | Week 7 | Create together

Grade 3 | TEKS 3.2B

3.2B: Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation. In plain English: Compare how communities meet needs such as government, education, transportation and recreation. Today: Compare how two communities meet the same need.

Grade 4 | TEKS 4.3D

4.3D: Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers. In plain English: Describe the Republic of Texas's successes, problems and organizations. Today: Describe one success of the Republic.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Grade 3: Compare how two communities meet the same need. Model with one district source, naming the visible clue. Grade 4: Describe one success of the Republic. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Place one item where it belongs and answer one evidence question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare how two communities meet the same need. Grade 4: Describe one success of the Republic. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare how people use or care for a tree in different seasons; connect the examples to local community spaces.

Reading and writing

2026-12-03 | Week 7 | Create together

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Seasons of Arnold's Apple Tree. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Seasons of Arnold's Apple Tree. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Seasons of Arnold's Apple Tree: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Seasons of Arnold's Apple Tree. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Seasons of Arnold's Apple Tree: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a four-season tree wheel with large picture labels and a clear seasonal sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Seasons of Arnold's Apple Tree by Gail Gibbons. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-03 | Week 7 | Create together

Grade 3 | TEKS 3.3F, 3.3G

3.3F: Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines. In plain English: Use models or number lines to show equivalent fractions. 3.3G: Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model. In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole. Today: Match one third with two sixths and show that the amounts are equal.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Grade 3: Line up equal-length whole strips. Compare one half with two fourths; their endpoints match. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Match one third with two sixths and show that the amounts are equal. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts.

Science

2026-12-03 | Week 7 | Create together

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Use The Seasons of Arnold's Apple Tree as today's context. Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Paper, glue sticks, collage scraps, fraction strips, toy car, ramp, magnet, clip, craft stick. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year.

Social studies

2026-12-03 | Week 7 | Create together

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Plan a helpful action and explain the expected result.

Grade 4 | TEKS 4.3E

4.3E: Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War. In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War. Today: Place annexation in the Texas timeline.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Grade 3: Plan a helpful action and explain the expected result. Model with one district source, naming the visible clue. Grade 4: Place annexation in the Texas timeline. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 mini "help our community" poster; G4 timeline/leader card. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Plan a helpful action and explain the expected result. Grade 4: Place annexation in the Texas timeline. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare how people use or care for a tree in different seasons; connect the examples to local community spaces.

Reading and writing

2026-12-04 | Week 7 | Create together

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Seasons of Arnold's Apple Tree. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Seasons of Arnold's Apple Tree. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Seasons of Arnold's Apple Tree: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Seasons of Arnold's Apple Tree. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Seasons of Arnold's Apple Tree: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a four-season tree wheel with large picture labels and a clear seasonal sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Seasons of Arnold's Apple Tree by Gail Gibbons. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-04 | Week 7 | Create together

Grade 3 | TEKS 3.3F, 3.3G

3.3F: Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines. In plain English: Use models or number lines to show equivalent fractions. 3.3G: Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model. In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole. Today: Match one third with two sixths and show that the amounts are equal.

Grade 4 | TEKS 4.3C, 4.3D

4.3C: Determine if two given fractions are equivalent using a variety of methods. In plain English: Determine whether two fractions name the same amount. 4.3D: Compare two fractions with different numerators and different denominators and represent the comparison using the symbols >, =, or <. In plain English: Compare fractions with different numerators and denominators using >, = or <. Today: Compare one half with three fourths using matching whole lengths.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Use The Seasons of Arnold's Apple Tree as today's context. Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Grade 3: Line up equal-length whole strips. Compare one half with two fourths; their endpoints match. Grade 4: Place one half and one fourth on equal-size wholes. Show the greater amount and compare two fourths with one half.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: compare 1/2 and 3/4 on equal-length wholes and record 1/2 < 3/4. This pair has different numerators and denominators.

You Do

Grade 3: Match one third with two sixths and show that the amounts are equal. Grade 4: Compare one half with three fourths using matching whole lengths.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Social studies

2026-12-04 | Week 7 | Create together

Grade 3 | TEKS 3.1A

3.1A: Describe how individuals, events, and ideas have changed communities, past and present. In plain English: Explain how people, events and ideas have changed communities. Today: Show a community problem, action and result.

Grade 4 | TEKS 4.3E

4.3E: Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War. In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War. Today: Explain how a Republic event connects to statehood.

I Do

Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Use The Seasons of Arnold's Apple Tree as today's context. Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Grade 3: Show a community problem, action and result. Model with one district source, naming the visible clue. Grade 4: Explain how a Republic event connects to statehood. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Seasons of Arnold's Apple Tree and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Student presents the product using speech, AAC, pointing, or dictated sentence. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Show a community problem, action and result. Grade 4: Explain how a Republic event connects to statehood. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Seasons of Arnold's Apple Tree that represents this connection.

Book connection for this subject

The Seasons of Arnold's Apple Tree | Compare how people use or care for a tree in different seasons; connect the examples to local community spaces.

Reading and writing

2026-12-07 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Little Penguins. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Little Penguins. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Little Penguins: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Little Penguins. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Little Penguins | Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Little Penguins: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Design a winter-weather outfit for a paper penguin and label each clothing choice. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Little Penguins by Cynthia Rylant. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-07 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.3F, 3.3G

3.3F: Represent equivalent fractions with denominators of 2, 3, 4, 6, and 8 using a variety of objects and pictorial models, including number lines. In plain English: Use models or number lines to show equivalent fractions. 3.3G: Explain that two fractions are equivalent if and only if they are both represented by the same point on the number line or represent the same portion of a same size whole for an area model. In plain English: Explain why equivalent fractions mark the same point or cover the same amount of an equal-size whole. Today: Match one third with two sixths and show that the amounts are equal.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Grade 3: Line up equal-length whole strips. Compare one half with two fourths; their endpoints match. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Match one third with two sixths and show that the amounts are equal. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Compare picture groups of winter clothes or penguins with the week's fraction comparison strips.

Science

2026-12-07 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, board, felt, ramp, tape, fraction strips, project board, curriculum history pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely.

Social studies

2026-12-07 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.1A

3.1A: Describe how individuals, events, and ideas have changed communities, past and present. In plain English: Explain how people, events and ideas have changed communities. Today: Identify a community change caused by people.

Grade 4 | TEKS 4.3C

4.3C: Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones. In plain English: Identify leaders who helped establish Texas as a republic and a state. Today: Identify a leader of the Republic of Texas.

I Do

Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Grade 3: Identify a community change caused by people. Model with one district source, naming the visible clue. Grade 4: Identify a leader of the Republic of Texas. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use one photo/event card and a simple question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Identify a community change caused by people. Grade 4: Identify a leader of the Republic of Texas. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Recognize that family members can make different choices and identify ways a community prepares for cooler weather.

Reading and writing

2026-12-08 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Little Penguins. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Little Penguins. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Little Penguins: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Little Penguins. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Little Penguins | Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Little Penguins: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Design a winter-weather outfit for a paper penguin and label each clothing choice. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Little Penguins by Cynthia Rylant. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-08 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.3H

3.3H: Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models. In plain English: Compare fractions with the same numerator or denominator and justify which is greater. Today: Compare three fourths and one fourth; show which is larger and why.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Grade 3: Use equal-length wholes to compare one half and one fourth. Point to the larger amount. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Compare three fourths and one fourth; show which is larger and why. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Compare picture groups of winter clothes or penguins with the week's fraction comparison strips.

Science

2026-12-08 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, board, felt, ramp, tape, fraction strips, project board, curriculum history pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely.

Social studies

2026-12-08 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Explain an action that improves a community.

Grade 4 | TEKS 4.3D

4.3D: Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers. In plain English: Describe the Republic of Texas's successes, problems and organizations. Today: Explain a challenge faced by the Republic.

I Do

Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Grade 3: Explain an action that improves a community. Model with one district source, naming the visible clue. Grade 4: Explain a challenge faced by the Republic. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. G3 community solution; G4 historical action/leader. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Explain an action that improves a community. Grade 4: Explain a challenge faced by the Republic. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Recognize that family members can make different choices and identify ways a community prepares for cooler weather.

Reading and writing

2026-12-09 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Little Penguins. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Little Penguins. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Little Penguins: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Little Penguins. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Little Penguins | Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Little Penguins: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Design a winter-weather outfit for a paper penguin and label each clothing choice. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Little Penguins by Cynthia Rylant. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-09 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.3H

3.3H: Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models. In plain English: Compare fractions with the same numerator or denominator and justify which is greater. Today: Compare three fourths and one fourth; show which is larger and why.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Grade 3: Use equal-length wholes to compare one half and one fourth. Point to the larger amount. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Compare three fourths and one fourth; show which is larger and why. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Science

2026-12-09 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8B

3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Grade 3: Release the same car from a low ramp and a higher ramp. Keep the car and surface the same. Faster movement has more mechanical energy. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Identify the observed faster run and point to evidence. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, board, felt, ramp, tape, fraction strips, project board, curriculum history pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely.

Social studies

2026-12-09 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.2B

3.2B: Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation. In plain English: Compare how communities meet needs such as government, education, transportation and recreation. Today: Compare how two communities meet the same need.

Grade 4 | TEKS 4.3D

4.3D: Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers. In plain English: Describe the Republic of Texas's successes, problems and organizations. Today: Describe one success of the Republic.

I Do

Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Grade 3: Compare how two communities meet the same need. Model with one district source, naming the visible clue. Grade 4: Describe one success of the Republic. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Physically place card rather than filling a long worksheet. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare how two communities meet the same need. Grade 4: Describe one success of the Republic. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Recognize that family members can make different choices and identify ways a community prepares for cooler weather.

Reading and writing

2026-12-10 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Little Penguins. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Little Penguins. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Little Penguins: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Little Penguins. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Little Penguins | Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Little Penguins: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Design a winter-weather outfit for a paper penguin and label each clothing choice. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Little Penguins by Cynthia Rylant. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-10 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.3H

3.3H: Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models. In plain English: Compare fractions with the same numerator or denominator and justify which is greater. Today: Compare three fourths and one fourth; show which is larger and why.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Grade 3: Use equal-length wholes to compare one half and one fourth. Point to the larger amount. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Compare three fourths and one fourth; show which is larger and why. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Compare picture groups of winter clothes or penguins with the week's fraction comparison strips.

Science

2026-12-10 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8A, 3.8B

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. 3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Grade 3: Choose a familiar motion investigation and make a model or photo display. Grade 4: Compare the same car on smooth board and felt; test a magnet near a paper clip; release a ball into a tray.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Demonstrate the tested change and communicate one observation. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Toy car, board, felt, ramp, tape, fraction strips, project board, curriculum history pictures. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely.

Social studies

2026-12-10 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.9C

3.9C: Identify and describe individual acts of civic responsibility, including obeying laws, serving and improving the community, serving on a jury, and voting. In plain English: Describe civic responsibilities such as following laws, helping the community, jury service and voting. Today: Plan a helpful action and explain the expected result.

Grade 4 | TEKS 4.3E

4.3E: Explain the events that led to the annexation of Texas to the United States and the impact of the U.S.-Mexican War. In plain English: Explain how Texas became part of the United States and the effects of the U.S.-Mexican War. Today: Place annexation in the Texas timeline.

I Do

Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Use Little Penguins as today's context. Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Grade 3: Plan a helpful action and explain the expected result. Model with one district source, naming the visible clue. Grade 4: Place annexation in the Texas timeline. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Use cause to action to result arrows. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Plan a helpful action and explain the expected result. Grade 4: Place annexation in the Texas timeline. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Recognize that family members can make different choices and identify ways a community prepares for cooler weather.

Reading and writing

2026-12-11 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from Little Penguins. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from Little Penguins. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from Little Penguins: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: Little Penguins. Bring the props and response mats in the weekly book guide.

Book connection for this subject

Little Penguins | Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about Little Penguins: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Design a winter-weather outfit for a paper penguin and label each clothing choice. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

Little Penguins by Cynthia Rylant. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-11 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.3H

3.3H: Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models. In plain English: Compare fractions with the same numerator or denominator and justify which is greater. Today: Compare three fourths and one fourth; show which is larger and why.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Use Little Penguins as today's context. Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Grade 3: Use equal-length wholes to compare one half and one fourth. Point to the larger amount. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Compare three fourths and one fourth; show which is larger and why. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Compare picture groups of winter clothes or penguins with the week's fraction comparison strips.

Science

2026-12-11 | Week 8 | Use evidence to improve a design

Grade 3 | TEKS 3.8A, 3.8B

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. 3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. Today: Test a pattern in gravity, friction or magnetism.

I Do

Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Use Little Penguins as today's context. Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Repeat smooth and felt track trials; use evidence to select a track design.

We Do

Return to Little Penguins and use its pictures, props or vocabulary as the context. Complete three trials. Record prediction and observed result. Use the Friday science tasks to assess during the investigation. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Demonstrate the tested change and communicate one observation. Grade 4: Show friction, magnetic attraction or gravity using observed evidence.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from Little Penguins that represents this connection.

Book connection for this subject

Little Penguins | Recognize that family members can make different choices and identify ways a community prepares for cooler weather.

Reading and writing

2026-12-14 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Snowy Day. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Snowy Day. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Snowy Day: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Snowy Day. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Snowy Day | Sequence Peter's winter experiences and explain what he notices from morning to the next day.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Snowy Day: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a layered neighborhood scene with a beginning-middle-end winter walk sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Snowy Day by Ezra Jack Keats. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-14 | Week 9 | Show what you learned

Grade 3 | TEKS 3.3H

3.3H: Compare two fractions having the same numerator or denominator in problems by reasoning about their sizes and justifying the conclusion using symbols, words, objects, and pictorial models. In plain English: Compare fractions with the same numerator or denominator and justify which is greater. Today: Compare three fourths and one fourth; show which is larger and why.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Grade 3: Use equal-length wholes to compare one half and one fourth. Point to the larger amount. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Compare three fourths and one fourth; show which is larger and why. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Snowy Day that represents this connection.

The Snowy Day | Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record.

Science

2026-12-14 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8A, 3.8B

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. 3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7, 4.8A

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. 4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Use a tested model to explain a force or energy transfer.

I Do

Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Grade 3: Choose a familiar motion investigation and make a model or photo display. Grade 4: Build a model of an investigated force or energy transfer.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Demonstrate the tested change and communicate one observation. Grade 4: Demonstrate the change and communicate evidence for the explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Balance, rock, cotton ball, measuring cup, two containers, tray, fraction strips, project photos. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

The Snowy Day | Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather.

Social studies

2026-12-14 | Week 9 | Show what you learned

Grade 3 | TEKS 3.1A

3.1A: Describe how individuals, events, and ideas have changed communities, past and present. In plain English: Explain how people, events and ideas have changed communities. Today: Identify a community change caused by people.

Grade 4 | TEKS 4.3C

4.3C: Identify leaders important to the founding of Texas as a republic and state, including José Antonio Navarro, Sam Houston, Mirabeau Lamar, and Anson Jones. In plain English: Identify leaders who helped establish Texas as a republic and a state. Today: Identify a leader of the Republic of Texas.

I Do

Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Grade 3: Identify a community change caused by people. Model with one district source, naming the visible clue. Grade 4: Identify a leader of the Republic of Texas. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Student chooses from previously learned cards, not a brand-new topic. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Identify a community change caused by people. Grade 4: Identify a leader of the Republic of Texas. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

The Snowy Day | Notice the neighborhood places Peter visits and compare how children use familiar community spaces.

Reading and writing

2026-12-15 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Snowy Day. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Snowy Day. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Snowy Day: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Snowy Day. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Snowy Day | Sequence Peter's winter experiences and explain what he notices from morning to the next day.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Snowy Day: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a layered neighborhood scene with a beginning-middle-end winter walk sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Snowy Day by Ezra Jack Keats. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-15 | Week 9 | Show what you learned

Grade 3 | TEKS 3.7D, 3.7E

3.7D: Determine when it is appropriate to use measurements of liquid volume (capacity) or weight. In plain English: Decide whether a situation calls for measuring weight or liquid capacity. 3.7E: Determine liquid volume (capacity) or weight using appropriate units and tools. In plain English: Measure weight or liquid capacity with the right tool and units. Today: Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Grade 3: Choose a balance with gram weights to measure a classroom object, or a marked measuring cup to measure water in milliliters. Name the tool, number and unit. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Choose the correct tool, measure a new object or amount of water, and record the number with its unit. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Science

2026-12-16 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8A, 3.8B

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. 3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7, 4.8A

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. 4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Use a tested model to explain a force or energy transfer.

I Do

Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Grade 3: Choose a familiar motion investigation and make a model or photo display. Grade 4: Build a model of an investigated force or energy transfer.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Predict with objects or pictures, test together, then identify what changed. Keep one test variable different and other relevant conditions the same. Grade 3: plan two releases of the same car, one slow and one faster, into the same lightweight foam block. Keep the car, block, surface and collision point fixed; reset the block and repeat three trials per condition. Record observed speed and how far the block moves. Use the greater observed effect as evidence about mechanical energy; do not use travel distance alone as a speed measurement.

You Do

Grade 3: Demonstrate the tested change and communicate one observation. Grade 4: Demonstrate the change and communicate evidence for the explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Sort familiar object/photo matches away from the experiment station. Experiments are adult supervised.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Balance, rock, cotton ball, measuring cup, two containers, tray, fraction strips, project photos. Adult manages circuit parts, magnets, small items and warm materials; use a low-voltage kit only. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

Social studies

2026-12-16 | Week 9 | Show what you learned

Grade 3 | TEKS 3.2B

3.2B: Compare ways in which people in the local community and other communities meet their needs for government, education, communication, transportation, and recreation. In plain English: Compare how communities meet needs such as government, education, transportation and recreation. Today: Compare how two communities meet the same need.

Grade 4 | TEKS 4.3D

4.3D: Describe the successes, problems, and organizations of the Republic of Texas such as the establishment of a constitution, economic struggles, relations with American Indians, and the Texas Rangers. In plain English: Describe the Republic of Texas's successes, problems and organizations. Today: Describe one success of the Republic.

I Do

Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Use The Snowy Day as today's context. Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Grade 3: Compare how two communities meet the same need. Model with one district source, naming the visible clue. Grade 4: Describe one success of the Republic. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. Photo, map, timeline position, or artifact image. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Compare how two communities meet the same need. Grade 4: Describe one success of the Republic. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

The Snowy Day | Notice the neighborhood places Peter visits and compare how children use familiar community spaces.

Reading and writing

2026-12-17 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8C, 3.7D

3.8C: Analyze plot elements, including the sequence of events, the conflict, and the resolution. In plain English: Explain the order of story events, the problem and how it is solved. 3.7D: Retell and paraphrase texts in ways that maintain meaning and logical order. In plain English: Retell or put a text into your own words while keeping its meaning and order. Today: Answer who, what and where questions about a selected event, then place it at the beginning, middle or end using a picture, AAC response or page detail.

Grade 4 | TEKS 4.8C, 4.7C

4.8C: Analyze plot elements, including the rising action, climax, falling action, and resolution. In plain English: Explain how a story builds to its turning point and moves toward a solution. 4.7C: Use text evidence to support an appropriate response. In plain English: Support an answer with something the text actually says or shows. Today: Explain how a character's action affects the problem or result; answer a why or how question and point to supporting page evidence.

I Do

Read a short scene from The Snowy Day. Think aloud: "Who is here? What happened? Is this at the beginning, middle or end?" Place one simple picture marker on the matching part of the sequence mat. Return to the real page to show the clue.

We Do

Reread the same scene together. Offer two clear picture choices for who/what/where; then place the scene in beginning, middle or end. Ask the Grade 4 learner how the character's action changes what happens next. Both learners use this same page and story.

You Do

Use a different scene from The Snowy Day. Grade 3 answers one who/what/where prompt and sequences the event. Grade 4 explains one character action and its effect, using a page or illustration clue. Record the exact prompt, response mode and support.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Use a familiar three-picture sequence from The Snowy Day: place, point to or tell what happened first, next and last. Keep a finished basket and an already-taught follow-up task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Record the question asked, the response, whether the event was placed in beginning/middle/end, the page or illustration used, and any extra prompt. This is classroom evidence; compare with an IEP goal only after the actual goal is provided.

Materials

Real books: The Snowy Day. Bring the props and response mats in the weekly book guide.

Book connection for this subject

The Snowy Day | Sequence Peter's winter experiences and explain what he notices from morning to the next day.

Writing TEKS 3.7B

Write a response to a literary or informational text that demonstrates an understanding of a text.

Writing TEKS 4.7B

Write responses that demonstrate understanding of texts, including comparing and contrasting ideas across a variety of sources.

Writing and spelling

Respond about The Snowy Day: draw or select one important scene, then complete a large-print frame: "First ____. Next ____. Last ____." Offer dictation, AAC, pointing or primary writing lines.

Visual WH and story-structure routine

Use the same book for both learners. Show who, what, where, when, why and how picture cards. Ask about the beginning, middle and end. Arrange three scene cards, then let each learner answer with pointing, AAC, speech, dictation or writing. Record the response mode and prompt level.

Craft or enrichment after comprehension

Make a layered neighborhood scene with a beginning-middle-end winter walk sequence. Offer it after the comprehension response or as an early-finisher activity; keep the WH pictures and sequence strip available.

8-9 AM read-aloud

The Snowy Day by Ezra Jack Keats. Return to the real pages for evidence; see the weekly book guide.

Math

2026-12-17 | Week 9 | Show what you learned

Grade 3 | TEKS 3.7D, 3.7E

3.7D: Determine when it is appropriate to use measurements of liquid volume (capacity) or weight. In plain English: Decide whether a situation calls for measuring weight or liquid capacity. 3.7E: Determine liquid volume (capacity) or weight using appropriate units and tools. In plain English: Measure weight or liquid capacity with the right tool and units. Today: Choose the correct tool, measure a new object or amount of water, and record the number with its unit.

Grade 4 | TEKS 4.3A, 4.3B, 4.3E

4.3A: Represent a fraction a/b as a sum of fractions 1/b, where a and b are whole numbers and b > 0, including when a > b. In plain English: Build fractions, including amounts greater than one, by adding unit fractions. 4.3B: Decompose a fraction in more than one way into a sum of fractions with the same denominator using concrete and pictorial models and recording results with symbolic representations. In plain English: Break a fraction into same-denominator sums in more than one way; show models and equations. 4.3E: Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. In plain English: Model and solve fraction addition and subtraction with equal denominators. Today: Build a fresh like-denominator sum or difference; name one and one half from the model.

I Do

Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Use The Snowy Day as today's context. Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Grade 3: Choose a balance with gram weights to measure a classroom object, or a marked measuring cup to measure water in milliliters. Name the tool, number and unit. Grade 4: Join one fourth and two fourths to make three fourths. Remove one fourth from three fourths. Build one whole plus one half.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Both students handle the shared materials. Practice one example with the teacher; then teach the two targets in separate rotations. Grade 4: build 3/4 as 1/4 + 1/4 + 1/4 and again as 1/4 + 2/4. Record both equations and explain why the same whole and denominator stay fixed.

You Do

Grade 3: Choose the correct tool, measure a new object or amount of water, and record the number with its unit. Grade 4: Build a fresh like-denominator sum or difference; name one and one half from the model.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Complete a mastered counting/sorting tray or known Bridges practice task at the student's established level.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. This is practice evidence unless today is a scheduled graded product. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

Counters, plates/cups and the linked math mat. Select the matching grade-level STEMscopes lesson. Use Bridges placement to choose a separate foundational intervention. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

The Snowy Day | Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record.

Science

2026-12-17 | Week 9 | Show what you learned

Grade 3 | TEKS 3.8A, 3.8B

3.8A: Identify everyday examples of energy, including light, sound, thermal, and mechanical. In plain English: Recognize everyday examples of light, sound, thermal and mechanical energy. 3.8B: Plan and conduct investigations that demonstrate how the speed of an object is related to its mechanical energy. In plain English: Plan and carry out a test connecting an object's speed to its mechanical energy. Today: Compare slow and faster runs of the same car; use the effect on a foam block to explain the relationship between speed and mechanical energy.

Grade 4 | TEKS 4.7, 4.8A

4.7: Plan and conduct descriptive investigations to explore the patterns of forces such as gravity, friction, or magnetism in contact or at a distance on an object. In plain English: Plan and conduct investigations to find patterns in gravity, friction or magnetism. 4.8A: Investigate and identify the transfer of energy by objects in motion, waves in water, and sound. In plain English: Investigate how moving objects, water waves and sound transfer energy. Today: Use a tested model to explain a force or energy transfer.

I Do

Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Use The Snowy Day as today's context. Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Grade 3: Choose a familiar motion investigation and make a model or photo display. Grade 4: Build a model of an investigated force or energy transfer.

Model with one district source, naming the visible clue. Grade 4: Explain how a Republic event connects to statehood. Use the current Texas history map, image or excerpt; name the person/event and point to the evidence.

We Do

Return to The Snowy Day and use its pictures, props or vocabulary as the context. Work together with a second example from the same source set. One visual, one explanation, one teacher follow-up question. Keep the grade-specific question visible and fade added hints.

You Do

Grade 3: Show a community problem, action and result. Grade 4: Explain how a Republic event connects to statehood. Use a fresh source/card; accept a model, pointing, AAC or a spoken explanation.

Rotate and switch

Teacher with Grade 3 for 8-10 minutes while Grade 4 uses the taught independent task; switch. Match supports to each learner, not the grade label. Independent task: Match two familiar source pictures or complete a known picture-to-object task.

Access and participation

Use objects or two clear choices, the learner's planned response method and wait time. Offer a private response or equivalent retry when needed; record extra help and no response separately.

Evidence and progress

Save one dated response for each grade's target above: a model/photo, selected answer, dictated sentence or work sample. Record correct / total and extra prompts separately. Use three fresh items for the Friday subject check. Use it for IEP progress only if it measures the actual goal under its required conditions; goals are awaiting upload.

Materials

District source pictures or excerpts, two-event sequence mat and writing/history frames. The classroom texts do not replace Texas history sources. Add a visual or prop from The Snowy Day that represents this connection.

Book connection for this subject

The Snowy Day | Notice the neighborhood places Peter visits and compare how children use familiar community spaces.

Our nine weeks of learning

October 13-December 18, 2026 | Family overview

We will learn through real books, objects, models and short investigations. Students can show learning by speaking, pointing, arranging pictures, using AAC or writing. We keep a predictable daily routine.

Week 1 | October 13 to 16

Helpers solve a problem by sharing what they have. | Books: Room on the Broom | Story focus: Notice the problem, the helper's action, and what changes next.

Book-centered connections: Math - Count and share "broom supplies" into equal groups; name the total or amount in each group. Science - Use broom, wagon and character props to test a push or pull and describe the change in motion. Social studies - Name how each helper contributes and connect the story to responsible classroom citizenship. Enrichment - Make a helper collage or build a paper broom with labeled passengers.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Make equal groups and find the total; then Share equally and find how many are in each group. (TEKS 3.4D, 3.4E, 3.4H, 3.4J). Grade 4 - Model division and connect the model to an equation. (TEKS 4.4E, 4.4F).

Science: Grade 3 - Show how a push or pull changes motion. (TEKS 3.7A, 3.7B). Grade 4 - Compare mixtures and show that the materials are still present. (TEKS 4.6B, 4.6C).

Social studies: Grade 3 - Recognize responsible citizenship and explain how people help their community. (TEKS 3.9C, 3.9A). Grade 4 - Identify why people explored Texas and connect an explorer to a route, goal, or result. (TEKS 4.2B, 4.2A).

Week 2 | October 19 to 23

A difficult problem changes when everyone works together. | Books: Big Pumpkin | Story focus: Sequence the stuck-pumpkin problem, the group's attempts, and the shared solution.

Book-centered connections: Math - Share pumpkin counters or seeds into equal groups and represent the groups with the week's operation. Science - Use a toy pumpkin or car to show how a push or pull changes position and motion. Social studies - Match each character to a team role and explain how cooperation helps the group. Enrichment - Create a lift-the-pumpkin paper chain showing each helper in order.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Share equally and find how many are in each group. (TEKS 3.4H, 3.4J). Grade 4 - Represent a two-step problem with operations, a diagram and a letter for the unknown. (TEKS 4.5A).

Science: Grade 3 - Show how a push or pull changes motion. (TEKS 3.7A, 3.7B). Grade 4 - Observe energy moving from one object to another. (TEKS 4.8A).

Social studies: Grade 3 - Recognize responsible citizenship and explain how people help their community. (TEKS 3.9A, 3.9C). Grade 4 - Connect motivations for exploration to specific explorers and outcomes. (TEKS 4.2A, 4.2B).

Week 3 | October 26 to 30

Everyone contributes a job so a shared plan can work. | Books: Pumpkin Soup | Story focus: Identify the characters' jobs, the conflict about changing roles, and the repaired plan.

Book-centered connections: Math - Use pretend soup ingredients to make equal groups or a simple input-output table for servings. Science - Connect stirring, scooping and warming to the week's energy target and record what the action changes. Social studies - Practice taking turns, sharing jobs and repairing a disagreement in a classroom community. Enrichment - Make a paper soup bowl with picture ingredients and a three-part problem/solution strip.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Share equally and find how many are in each group; then Show how two quantities change together in a table. (TEKS 3.4H, 3.4J, 3.5E). Grade 4 - Represent a two-step problem with operations, a diagram and a letter for the unknown; then Measure the space inside a rectangle and the distance around it. (TEKS 4.5A, 4.5C, 4.5D).

Science: Grade 3 - Identify light, sound, thermal and mechanical energy. (TEKS 3.8A). Grade 4 - Observe energy transfer, test materials and build a closed circuit. (TEKS 4.8A, 4.8B, 4.8C).

Social studies: Grade 3 - Recognize responsible citizenship and explain how people help their community. (TEKS 3.9A, 3.9C). Grade 4 - Summarize why exploration occurred and connect explorers to outcomes. (TEKS 4.2A, 4.2B).

Week 4 | November 2 to 6

Autumn leaves travel wherever the wind carries them. | Books: Leaf Man | Story focus: Follow Leaf Man's movement across settings; use the leaf collages and page sequence as evidence.

Book-centered connections: Math - Sort leaf picture cards by color, shape or setting; count each group and show the week's table or fraction target. Science - Observe leaves in light and shade, then make a safe wind test and describe what changes the leaves' motion. Social studies - Compare familiar local places with the marsh, orchard and fields in the illustrations; identify how people use each place. Enrichment - Create a leaf collage character and map the places it visits in order.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Show how two quantities change together in a table; then Name equal parts of a whole and show a fraction. (TEKS 3.5E, 3.3A, 3.3C). Grade 4 - Measure the space inside a rectangle and the distance around it. (TEKS 4.5C, 4.5D).

Science: Grade 3 - Identify light, sound, thermal and mechanical energy. (TEKS 3.8A). Grade 4 - Observe how sound transfers energy. (TEKS 4.8A).

Social studies: Grade 3 - Tell the difference between kinds of sources and use a source to learn about the past. (TEKS 3.14B, 3.14F). Grade 4 - Identify a major Texas Revolution event and place it in a simple cause/event/result sequence. (TEKS 4.3B, 4.3A).

Week 5 | November 9 to 13

Friends explore autumn places and collect leaves together. | Books: We're Going on a Leaf Hunt | Story focus: Sequence the friends' route, notice the leaves they find, and retell how the hunt ends.

Book-centered connections: Math - Sort and count the leaves collected on the story route; use the groups to model this week's fraction target. Science - Compare leaf colors, shapes and textures; record observations without claiming every local tree changes the same way. Social studies - Use a simple route map to connect the friends' journey with safe ways people explore and care for local places. Enrichment - Make a large-print route accordion with one leaf picture and location on each panel.

Reading and writing: Grade 3 - Find the central idea and supporting details. (TEKS 3.9D(i)). Grade 4 - Explain the central idea with evidence from the information book. (TEKS 4.9D(i), 4.7C).

Math: Grade 3 - Name equal parts of a whole and show a fraction; then Build and take apart fractions using unit fractions. (TEKS 3.3A, 3.3C, 3.3D). Grade 4 - Use a rule to complete an input-output table. (TEKS 4.5B).

Science: Grade 3 - Identify light, sound, thermal and mechanical energy. (TEKS 3.8A). Grade 4 - Observe energy transfer, test materials and build a closed circuit; then Test a pattern in gravity, friction or magnetism. (TEKS 4.8A, 4.8B, 4.8C, 4.7).

Social studies: Grade 3 - Compare information from two simple sources about the same topic. (TEKS 3.14A, 3.14B, 3.14F). Grade 4 - Identify major events/people of the Texas Revolution and connect actions to outcomes. (TEKS 4.3A, 4.3B).

Week 6 | November 16 to 20

Fletcher worries when his favorite tree changes in autumn. | Books: Fletcher and the Falling Leaves | Story focus: Track what Fletcher notices, how he responds, and what he discovers after the final leaf falls.

Book-centered connections: Math - Build and compare equal leaf groups, then use visual fraction strips to show the week's unit-fraction target. Science - Observe leaf color and texture changes; test how air moves paper leaves and record what the test shows. Social studies - Discuss how Fletcher cares for a living thing and identify a helpful way to care for trees in the community. Enrichment - Make a tree collage with removable leaves and a three-part change-over-time sequence.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Build and take apart fractions using unit fractions. (TEKS 3.3C, 3.3D). Grade 4 - Use equal-size wholes to compare fractions and explain why. (TEKS 4.3C, 4.3D).

Science: Grade 3 - Identify everyday forms of energy; then Test how speed relates to mechanical energy. (TEKS 3.8A, 3.8B). Grade 4 - Test a pattern in gravity, friction or magnetism. (TEKS 4.7).

Social studies: Grade 3 - Use historical sources to support one claim about the past. (TEKS 3.14A, 3.14B, 3.14F). Grade 4 - Place major events/people in order and explain one cause/effect relationship. (TEKS 4.3A, 4.3B).

Week 7 | November 30 to December 4

One tree changes through the seasons, and each season brings different observations. | Books: The Seasons of Arnold's Apple Tree | Story focus: Compare what Arnold's tree looks like and what happens to it in spring, summer, fall and winter.

Book-centered connections: Math - Put four seasonal tree pictures in order and use the sequence to represent equivalent fractions or equal parts. Science - Use the book's seasonal details to observe how daylight, temperature and tree appearance can change across a year. Social studies - Compare how people use or care for a tree in different seasons; connect the examples to local community spaces. Enrichment - Make a four-season tree wheel with large picture labels and a clear seasonal sequence.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Show that different fractions can name the same amount. (TEKS 3.3F, 3.3G). Grade 4 - Use equal-size wholes to compare fractions and explain why. (TEKS 4.3C, 4.3D).

Science: Grade 3 - Test how speed relates to mechanical energy. (TEKS 3.8B). Grade 4 - Test a pattern in gravity, friction or magnetism. (TEKS 4.7).

Social studies: Grade 3 - Explain how people's actions can improve a community and identify a community need/solution. (TEKS 3.1A, 3.9C, 3.2B). Grade 4 - Identify key leaders/events of the Republic of Texas and explain movement toward statehood/annexation. (TEKS 4.3C, 4.3D, 4.3E).

Week 8 | December 7 to 11

A family prepares for winter, and each penguin responds in a different way. | Books: Little Penguins | Story focus: Notice the signs of winter, the family's preparations and the penguin who chooses to stay home.

Book-centered connections: Math - Compare picture groups of winter clothes or penguins with the week's fraction comparison strips. Science - Explore how clothing materials help keep a pretend penguin warm; observe and compare the test safely. Social studies - Recognize that family members can make different choices and identify ways a community prepares for cooler weather. Enrichment - Design a winter-weather outfit for a paper penguin and label each clothing choice.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Show that different fractions can name the same amount; then Compare fractions with the same numerator or denominator. (TEKS 3.3F, 3.3G, 3.3H). Grade 4 - Join or remove fractional parts with the same denominator. (TEKS 4.3A, 4.3B, 4.3E).

Science: Grade 3 - Test how speed relates to mechanical energy; then Demonstrate an energy idea and explain the observed evidence. (TEKS 3.8B, 3.8A). Grade 4 - Test a pattern in gravity, friction or magnetism. (TEKS 4.7).

Social studies: Grade 3 - Identify a community problem and explain how people can work together to improve it. (TEKS 3.1A, 3.9C, 3.2B). Grade 4 - Explain one challenge/success of the Republic of Texas and connect events to annexation/statehood. (TEKS 4.3C, 4.3D, 4.3E).

Week 9 | December 14 to 18

Peter explores how a snowy day changes the places he knows. | Books: The Snowy Day | Story focus: Sequence Peter's winter experiences and explain what he notices from morning to the next day.

Book-centered connections: Math - Measure and compare pretend snow with cups or counters; show the week's capacity target with a visual record. Science - Use paper snow and a safe ramp to observe motion; compare Peter's snowy setting with local winter weather. Social studies - Notice the neighborhood places Peter visits and compare how children use familiar community spaces. Enrichment - Make a layered neighborhood scene with a beginning-middle-end winter walk sequence.

Reading and writing: Grade 3 - Retell beginning, middle and end and answer story WH questions. (TEKS 3.8C, 3.7D). Grade 4 - Explain plot, character actions and story evidence. (TEKS 4.8C, 4.7C).

Math: Grade 3 - Compare fractions with the same numerator or denominator; then Choose a tool and measure weight or how much a container holds. (TEKS 3.3H, 3.7D, 3.7E). Grade 4 - Join or remove fractional parts with the same denominator. (TEKS 4.3A, 4.3B, 4.3E).

Science: Grade 3 - Demonstrate an energy idea and explain the observed evidence. (TEKS 3.8A, 3.8B). Grade 4 - Use a tested model to explain a force or energy transfer. (TEKS 4.7, 4.8A).

Social studies: Grade 3 - Show how an individual/group can improve a community using a problem to action to result explanation. (TEKS 3.1A, 3.9C, 3.2B). Grade 4 - Summarize one Republic/statehood event or leader and place it in the larger sequence. (TEKS 4.3C, 4.3D, 4.3E).

Friday routine

Each Friday: short spelling, reading, math and science checks. Science experiments: October 23, November 6, November 20 and December 11. The experiment provides the science check evidence. November 23-27 is fall break in this plan.

Individual learning outline

Student: _____ Current learning step: _____ Successful response mode: _____ Helpful supports: _____ Next challenge: _____ Family note: _____. IEP goals will be added after Stacie provides them.
